# Ellendale Lutheran Cemetery

Recorded September 1987 by Ron Houghtelin, Owatonna, MN

---

The Ellendale Lutheran Cemetery is located a half mile south of Ellendale, Minnesota in Berlin Township on the east side of Steele County Road 14 on a small hill. It is well drained and maintained and is active.

The cemetery is divided in three sections and is separated by three drives with a connecting drive on the east on the backside of the cemetery. The north driveway borders the north section which is about 200'x 200'. The center drive divides the north section from the center section about 170'x 200' and the south drive borders the south section which is about 180' x 200'. The overall cemetery is about 550' x 200' and includes a 10'x 12' block building on the east side in line with the center drive.

The recordings of each section began with the rows on the west side of the cemetery from north to south. Row 1 begins in the N/W corner of the north section from the north drive to the center drive. Row 2 from the north drive to the center drive and so on to row 9 at the east side of the north section.

The center and south sections were recorded with the same Row layout. Row numbering started on the west and Rows recorded from north to south from drive to drive moving east to the next Row. Row 8 is the last row of the center section and Row 10 is the last row of the south section recorded. The south section is very open yet and many rows are not used at this recording.

## **Elmira Cemetery**

Report made in 1985, Somerset twp  
by Ron Houghtelin, Owatonna, Minnesota

---

This old cemetery was located near the old village of Elmira which was located in Somerset twp near the NW corner of the NW quarter of section 18 in Steele County on what has been called the old Miller place.

The original cemetery is now gone and no markers are visible or evident at this reporting and this area is now meadow and farm crops.

The location was identified by persons that had lived in this area when the markers were still in place several years ago. The former cemetery site was located a mile south of the old village of Saco and then over the railroad tracks about a half mile on the south side of the twp road on the hill.

Most of the burials were most probably some of the old pioneer settlers mentioned in " The History of Steele and Waseca Counties", who settled near by. This cemetery was also located in the same section and was near the village of Elmira.(1857) Laid out by Dr Thomas Twilford who platted about 80 acres for the village.

The village failed when the railroad located further east to its present location which now runs thru The present village of Hope, Minnesota.

No names of any burials are known for this report, but it is likely persons associated with the Elmira venture and with Dr Twilford and the settler's children, would be among those buried in this cemetery. This report was written in memory of the early pioneer settlers who found their way to Steele County Minnesota, who braved this early settlement and are buried in unmarked graves.

**This report was written in Sept 1985 by Ron Houghtelin, Owatonna, Minnesota.**

Some additional names in the in the Forest Hill Cemetery at Owatonna, Minnesota.

Recorded by: Ron Houghtelin - Jan 2005

---

---

These names are listed for general information only and generally do not have any data. This information was taken in August 2004 to identify the sections for the map layout and might be of some value to researchers, so I have listed them here rather than toss them out. I took a ride and added some more names to this list. The names in this list are not complete, but names are in the section they are buried in and this is not a complete index.
