Mapped by Ron Houghtelin, January 2005

Owatonna Memorial Gardens Cemetery

Recorded in Nov and Dec of 1992 by Ron Houghtelin, Owatonna, Minnesota

The Owatonna Memorial Gardens Cemetery was called The Grandview Memorial Gardens prior to 1991 and was a cemetery. Located in section 28, Clinton Falls twp, Steele Co, Minnesota, east off Co Rd 45. The cemetery is now maintained by a board of trustees. This record has been made by Ron Houghtelin from the existing markers in the cemetery merging names from the cemetery layout plat furnished by the chairman, Les Abraham. This record has been made for genealogy information, that would not have easy access to this information. I thank Les Abraham and the cemetery board for their cooperation in making this record possible. I have recorded and reported my information in rows and have broken up the various Gardens that make up the portions of this cemetery. In making this record, I have tried to minimize the number of Gardens that have burials are listed as recorded.

**** 1 -- Garden of Devotion --** This Garden is located in the northwest part of the cemetery. Row 1 to Row 38, between Rows 22 and 23. Recorded information from north to south. Row 1 is on the west end of this Garden next to highway 45 and Row 38 is located at the east end of the Garden next to the Garden of Atonement.

**** 2 -- Garden of Atonement --** This Garden is located just east of the Garden of Devotion in the northeast part of the cemetery. Row 1 to Row 38,46, with a 6' access lane between Rows 16 and 17. Recorded information from north to south. Row 1 is on the west end of the Garden, next to the Garden of Devotion. There are burials only into Row 38 at the east end of this Garden and from Row 38 to Row 46 in this Garden.

**** 3 -- Garden of Christus --** This Garden is located in the center portion of the cemetery with the traffic lane to Row 46, with an open area of 18' between Rows 23 and 24. Recorded information from north to south. Row 1 is on the west end of the Garden where the traffic comes into the cemetery from county road 45 and Row 46 is at the east end of the Garden.

**** 4 -- Garden of Honor --** This Garden is provided for persons and their families that have served in the armed services. The Garden of Honor is located on the southeast part of the cemetery, just south of the east part of the Garden of Atonement. Row 1 to Row 20,46. A 6' access lane between Rows 16 and 17. Recorded information north to south from Row 1 to Row 20. No burials at this time from Row 20 to Row 46 in this Garden.

Meraker Lutheran Norwegian Cemetery

Recorded March 1987 by Ron Houghtelin, Owatonna, Minnesota

This cemetery is located in Deerfield twp on the west side of section 27 along the township road about a mile from Road 6 and the town hall. This is the former site of the Meraker Lutheran Church and now the cemetery is the Norwegian Cemetery. The church building is no longer here.

The size of the cemetery is about 140' east and west x about 120' north and south. Fenced on the west, north and in the south /west corner that is no longer used as the south side is open to a farmer's driveway. All of the burials are along the east fence and in the north/west corner area.

I have provided a layout map with this report that was compiled from two sources. One source is from my survey of all the markers visible in regards to their location in the cemetery from fences and relative to their location. I recorded the information written on the stone markers. (Names and Dates)

The other source was information provided by Esther (Eliason)(Larson) Grunz of Owatonna whose parents, Fred and Esther are buried in plots 41, 42. Her grandparents are buried in plots 28, 29, and Esther's great-grandparents, EO By and Esther died Jan 1 2000 and is buried in plot 43 in this cemetery. The information Esther provided listed all the burials with or without markers.

All of the burials in Row 1 are exactly as listed in Esther's cemetery data. Row 2 is listed exactly the same as Row 1 except two sites on the north which have stone markers in place and I must assume the markers are in the right place. Row 3 is the same as the data except markers again prove where one person was actually buried. Row 4 is the same as the data and Row 5 is correct except her data showed the person buried in plot 44 as in another location. But John C Elias

The data for the unmarked graves do not list any dates, only the names of the person buried on that plot or site. The exact location of the plots or even if the burials were exactly as laid out but for the purpose intended is as follows:

Meraker Norwegian Cemetery Layout

Deerfield Twp/west side of Section 27 Steele Co Minnesota
East Fence 120' North/South

Meriden Township Cemetery

(also known as the Brase Cemetery)

Recorded July 23 1985 by Ron Houghtelin, Owatonna, Minnesota

German

This cemetery is located in Meriden twp in the SW corner of section 29 . This cemetery is mowed and some ma

*Several old stone markers are broken and illegible. Most of the stone markers are in good condition. The most appears to be of German ancestry, many born in Germany as is indicated by inscriptions

Meriden cemetery was originally surveyed Sept 1865 an is recorded in the Steele County Recorders office in O original names of plat owners at time of first survey at the end of this report. Also in 1885 20 more burial sites , cemetery.

Merton Township Cemetery

Recorded July 31 1985 by Ron Houghtelin, Owatonna, Minnesota

This cemetery is located in Merton twp N/W Corner of sect 16. Entrance is from the twp road 1/4 mile north of Mowed and on a hill is well drained. The cemetery is fenced with the gate on the east side of the cemetery. Some are broken and some are probably lost.

Moland Lutheran Church Yard Cemetery

Merton township, Steele county, MN

Recorded April 1987 by Ron Houghtelin

This cemetery is located in Merton twp in the north east corner of section 11 just west of Steele County Road 1 Moland Lutheran Church except in the front area.

Well kept up and maintained it is very active. The cemetery is not fenced and the area on the south and west are (Parsonage?) is located on the north. The cemetery is about 100'(east and west)X 250' (north and south) in the e (called the west area) and is about 100'(east and west)X 80'(north and south) in the area north of the church call

In the area south of the church the cemetery is about 150'(east and west)X 100'(north and south) I called the sou

I started recording in the north west corner calling this row 1 and recorded from north to south. Next row east is the north and recorded south and so on to row 8 at the back of the church where I began the rows in the north at the north area I recorded the rows as north row 9 to north row 17 at the east end of the north area of the cemetery to south.

After completing the north section, I moved to the south area where I began recording south row 9 near the sou church, (north to south) and so on east to row 22 near Steele County Road 10 of the south area of the cemetery.

oss is: on same stone marker. osp is: on the same plot. onp is: on next plot.

vhtr is: very hard to read. umgs is: unmarked grave site. (FS)is: foot stone.

(N/S) is: north to south.
