# South Crane Creek Cemetery

Recorded Sept 19, 1985

by Ron Houghtelin, Owatonna, Minnesota

---

Crane Creek Cemetery is located on Steele Co Road 17 about 2 miles north of TH 14 west of Owatonna Minnesota corner of section 26 - T108N R20W. Crane Creek cemetery seems to be two cemetery's, and have separate cemeteries are well cared for and mowed etc. The South Crane Creek cemetery is fenced and has a gate and a east and west thru the front part to the rear.

This cemetery is owned by the Crane Creek Cemetery Association and was plated and surveyed and the origin on record at the Steele County Records office in Owatonna Minnesota. I will report this list at the end

I have separated the two Crane Creek Cemetery's to correspond with the separation of the two. **So I will call the Crane Creek Cemetery**, and the **cemetery north of the hedge, the North Crane Creek Cemetery**. (only na have two separate reports) **One for the South Crane Creek Cemetery, which includes the annex which was from the original platting to the west side.** (The plat layout and the annex layout will follow the report of the Cemetery) One report for the North Crane Creek Cemetery will follow in a separate report

# St John Evangelical Lutheran Church Yard Cemetery

Havana Twp: Recorded April 6 1987 by Ron Houghtelin

---

This cemetery is located in the back area of the church yard in the S/W corner of section 36 of Havana Twp, on Road 16 in Steele County Minnesota. Maintained and well kept and burials are layed out in rows north and south the north west corner of the cemetery and called the row on the west, row 1 and the next row east row 2 and so far east side of the cemetery. The area size of the cemetery is about 400' east and west X 180' north and south with south and a 15' Drive from west to east thru the center.

An 8' grass lane runs east and west about the middle of each long section north and south of the center drive. I recorded the rows when crossing the grass lanes and the Drives.

All rows were recorded from north to south and some of the inscriptions were also recorded. oss is: on the same previous person. osp is: on the same plot. onp is: on the next plot. vhtr is: very hard to read. umgs is: unmarked data or dates. (N/S) is north and south. Some German inscribed on some markers

## St Johns Cemetery - Some Additional Names Jan 2005 Owatonna, Minnesota

---

This is not a record of burials in this cemetery. The following names were used to identify the sections of the cemetery, just to make the map, to locate the sections that are used in some cemetery records. I tossed them out. I walked the cemetery and added some more names.

I have listed these names in the sections that they are buried in. This is not a complete list of the names buried here and is not an index.

### Section A ---- all new burials

Benda, Albert Company, John Stange, Schoonmaker, Bjerck, Olp, Kading, Arndt, Hinton, Mildred Runge, Olson, Krampitz, Zwiebel, Knaak, Knutsen, Summers, Ziegenhager, Bjirk, Kruger, Van

# St Pauls Lutheran Church Cemetery

Meriden township cemetery recorded by Ron Houghtelin on March 27, 1987

---

St Pauls Lutheran Church and Cemetery is located a mile south of Meriden, Minnesota - Steele County, in the S/W corner of section 20 in Meriden twp. Steele County Road 18 turns east at the corner and the cemetery is on the west side of the road and the east side of the road in the S/W corner of section 20.

This cemetery is well kept and maintained. It is about 130' deep (E/W) X 330' (N/S) long (parallel with the road) dividing the cemetery into smaller sections and a larger grass access or lane at the south end, of about 50' or so. north, and west sides and open to the road on the east.

Starting at the north end of the cemetery I have called the first grass lane next to the fence, 8' grass lane A, next to grass lane C, 8' grass lane D, 8' grass lane E (wooden beam cross) (In loving memory of Elmer Krause given by near the center and rear of the cemetery), 8' grass lane F, 8' grass lane G, and the 50' grass lane on the south to the east. lanes are spaced 40' apart for access, I suppose.

Starting in the N/W corner of the cemetery I recorded the markers in seven (7) rows from north to south and also the grass lanes as I moved south. The first row was the row at the west side of the cemetery and row 2 was the next row to the east. The rows are 15' wide and row 7 is right next to the road ditch on the east side of the cemetery.
