Made available to The Steele Co. genealogy pages by: John Haberman

=====

These files contain all of the readable names as extracted from the microfilmed 1880 Federal Census page images for Steele County, Minnesota. The official date of the census was June 1, 1880. In addition to the SURNAME, Census Page, First Name and Age, I have added the Soundex code corresponding to each SURNAME. The "Enumeration District" Table, below, allows you to associate a census page with a township, city or village.

These files represent my best efforts at interpreting the text from the images. Others reviewing the images will interpret the text differently. The microfilm images are often of low quality. The census taker's penmanship is sometimes very poor. Time was not kind to the written text: the ink was absorbed by the paper yielding a 'fat squiggle' instead of written text and many images indicate paper discoloration (darkening) making the writing often difficult to read. The Clinton Falls Township pages are severely degraded and are essentially unreadable.

The SURNAMES are ordered alphabetically. I have chosen to use a "family friendly" format that preserves much of the family information from the census listings.

If you don't find the person(s) you seek, be very creative with alternate spellings and possible misspellings. The spelling of the census takers was often "creative". They generally spelled the names "as they heard them" (i.e., phonetically). Some of the census takers also had the (bad) habit of using initials instead of names. Reading the images was sometimes difficult but especially so when poor penmanship is combined with strings of "m", "n", "u", "w", "e", "i", "r", "s", etc. letters. A special "problem" that with the 1880 census images is the use of 'old style' written scripts especially for the letters "s", "f" and "ss". I have chosen to NOT change the 'appearance' of the name: thus the name "Agnes" typically appears to be spelled "Agnef". (My experiences interpreting the census images suggest that a given person's name will have an alternate spelling about 25% of the time.)

I made few attempts to correct 'obvious' spelling mistakes. Occasionally I made an "educated guess" about a name. In other cases I "flagged" names as partially unreadable. In a few instances the SURNAME was entirely unreadable.

=====

Census Enumeration Districts, Steele County, 1880

Census Pages	Enumeration District	Population
1 - 8	Merton Township	756
9 - 18	Havana Township	851
19 - 26	Aurora Township	600
27 - 32	Blooming Prairie Township	562
33 - 36	Blooming Prairie Village	338
37 - 44	Medford Township	761
45 - 53	Clinton Falls Township	503 (a)
54 - 61	Owatonna Township	584
62 - 93	Owatonna City	3161
94 - 102	Somerset Township	811 (b)
103 - 108	Summit Township	536 (c)
109 - 122	Deerfield Township	858 (d)
123 - 131	Meriden Township	809
132 - 138	Lemond Township	649
139 - 147	Berlin Township	683 (e)

Total		12262

- (a) The CLINTON FALLS Twp. pages are all badly degraded. For practical purposes, they are unreadable! In a few instances I was able to 'logically deduce' a surname based on readable fragments along with other available records. These names are flagged with the percent (%) symbol.
- (b) One page in the Somerset Twp. group is not sequenced properly. I corrected this to preserve family grouping.
- (c) Several pages of Summit Twp. data are unavailable. The population total shown includes these "missing" persons. Up to 35 families and 200 persons are involved.
- (d) A number of pages in the Deerfield Twp. group are incorrectly sequenced. Caution is required to avoid "breaking up" family groups. I corrected for this in these listings.
- (e) The last page of this census, containing Town of Berlin data, is grouped with the images for Traverse Co., MN.

=====

 Samples of the "Family Friendly" format

Surname, Soundex Page Name(s) & Age(s)

- 1880 Haberman, H165 103A Wenzl 62, Rosie 60, Jacob 29, Adolphus 24, Ferdinand 19, Carrie 17
 Haberman, H165 107A Vencil 39, Clara 37, Mary 17, Vencil 15, Threse 13, Manuel 11, Paul 8, John 6, Peter 4, Jacob 2, Annie d1
- 1900 Hubberman, H165 144B John 26, Kate 20, John 1
 Hoberman, H165 177A Wencil 58, Thressy 56, Rosy 16, Melia 12, Stena 11, Josie 10
- 1910 Habrman, H165 277B Wencil 69, Thressia 67, Amelia 21, Stanislav 20
 Haberman, H165 226B John J. 35, Kathrine 30, John W. 11,

Joseph 8, Elizabeth 5, Clara 3, George 8m
 1920 Haberman, H165 45A Vencil 79, Thresa 77
 Haberman, H165 146B John 46, Katherine 40, John R 21,
 Joseph R 18, Elizabeth 14, Clara 12,
 George 10, Albert 8, Louise 5, Paul 2
 1930 Haberman, H165 189A Kate 50, George 20, Albert 18, Louise 15,
 Paul 13

- Notes: 1. This composite shows entries from the 1880 - 1930 censuses and covers four generations of my family.
 2. The <year> identification appears ONLY in this sample.
 3. Notice the variety of spellings, names and nicknames.

 Explanation for Special Notations appearing in the listings

- * indicates multiple letters as unreadable
- ~ indicates one letter as unreadable
- ? indicates that the previous letter is uncertain
- or -- indicates no entry in that column
- (?) indicates that the name is an 'educated' guess
- (F) indicates a Female Person but an unreadable name
- (M) indicates a Male Person but an unreadable name
- m# indicates an age in months (for children younger than 1)
- d# indicates an age in days (for children younger than 1 month)

=====

This format, called "Family Friendly", evolved as a way to maintain some of the family relationship information from the census listings. Each new entry in the "Surname" column results from any of the following factors:

1. A new "household" marked in the census
2. A new "family" marked in the census
3. A new Surname occurring in the census
4. A 'continued' listing appearing on a new page

For each new "Surname" entry, a Soundex Code is also shown. That person marked as "Head" of the household is named first. Others listed on the same line, or continuing line(s), include those listed as wife, husband, son, daughter, and others sharing the same surname. Sometimes family members are not listed on the same page as the household "Head". This causes the sort routine to generate a new line and "Surname" entry. I have forced the routine to place these cases immediately following the line containing the "Head" of the household. A review of the ages usually suggests that this has happened.

This format fails to show family and household relationship information for:

1. in-laws
2. married daughters and their family
3. the wife's parents and siblings
4. step children
5. adopted children
6. siblings at the State School (Orphan Home)

!! IF YOU HAVE ANY DOUBTS ABOUT POSSIBLE FAMILY RELATIONSHIPS, !!
 !! YOU MUST OBTAIN AND CAREFULLY EXAMINE THE CENSUS IMAGES! !!

=====

 Notes

 =====

1. The SURNAME "Sister" is utilized to identify the Sisters at the Sacred Heart Convent.
2. The Soundex Index: This code number is intended to assist you in finding SURNAMES that sound alike. One flaw with this code is that it is based on "English" phonics - so it may work poorly for French or Native American etc. names. Another problem occurs for those with "prefixed" names (other than Mc- and Mac-) because these names are sometimes coded with and sometimes without the prefix.
3. For those names flagged as only partially readable, an attempt to determine a possible Soundex Index was made. The zero "0" is used to "pad" the index to its proper length.
4. 115 is the age of oldest person listed. 1 day is the age of the youngest person listed.
5. About 385 persons have been omitted from these listings because of missing pages and at least 37 SURNAMES lacking a readable first letter. 61 First Names are entirely unreadable. A number of names are flagged as partially readable.
6. The listing of "Landowners of Record" for Steele County in 1879 is available. Information from this may be useful in finding the information missing from lost and unreadable pages from the 1880 census.
7. A summary of the information contained in the 1880 Federal Census Records (images) is contained in a separate file.

John Haberman

Made available to The Steele Co. genealogy pages by: John Haberman

=====

These files contain all of the readable names as extracted from the microfilmed 1880 Federal Census page images for Steele County, Minnesota. The official date of the census was June 1, 1880. In addition to the SURNAME, Census Page, First Name and Age, I have added the Soundex code corresponding to each SURNAME. The "Enumeration District" Table, below, allows you to associate a census page with a township, city or village.

These files represent my best efforts at interpreting the text from the images. Others reviewing the images will interpret the text differently. The microfilm images are often of low quality. The census taker's penmanship is sometimes very poor. Time was not kind to the written text: the ink was absorbed by the paper yielding a 'fat squiggle' instead of written text and many images indicate paper discoloration (darkening) making the writing often difficult to read. The Clinton Falls Township pages are severely degraded and are essentially unreadable.

The SURNAMES are ordered alphabetically. I have chosen to use a "family friendly" format that preserves much of the family information from the census listings.

If you don't find the person(s) you seek, be very creative with alternate spellings and possible misspellings. The spelling of the census takers was often "creative". They generally spelled the names "as they heard them" (i.e., phonetically). Some of the census takers also had the (bad) habit of using initials instead of names. Reading the images was sometimes difficult but especially so when poor penmanship is combined with strings of "m", "n", "u", "w", "e", "i", "r", "s", etc. letters. A special "problem" that with the 1880 census images is the use of 'old style' written scripts especially for the letters "s", "f" and "ss". I have chosen to NOT change the 'appearance' of the name: thus the name "Agnes" typically appears to be spelled "Agnef". (My experiences interpreting the census images suggest that a given person's name will have an alternate spelling about 25% of the time.)

I made few attempts to correct 'obvious' spelling mistakes. Occasionally I made an "educated guess" about a name. In other cases I "flagged" names as partially unreadable. In a few instances the SURNAME was entirely unreadable.

=====

Census Enumeration Districts, Steele County, 1880

Census Pages	Enumeration District	Population
1 - 8	Merton Township	756
9 - 18	Havana Township	851
19 - 26	Aurora Township	600
27 - 32	Blooming Prairie Township	562
33 - 36	Blooming Prairie Village	338
37 - 44	Medford Township	761
45 - 53	Clinton Falls Township	503 (a)
54 - 61	Owatonna Township	584
62 - 93	Owatonna City	3161
94 - 102	Somerset Township	811 (b)
103 - 108	Summit Township	536 (c)
109 - 122	Deerfield Township	858 (d)
123 - 131	Meriden Township	809
132 - 138	Lemond Township	649
139 - 147	Berlin Township	683 (e)

Total		12262

- (a) The CLINTON FALLS Twp. pages are all badly degraded. For practical purposes, they are unreadable! In a few instances I was able to 'logically deduce' a surname based on readable fragments along with other available records. These names are flagged with the percent (%) symbol.
- (b) One page in the Somerset Twp. group is not sequenced properly. I corrected this to preserve family grouping.
- (c) Several pages of Summit Twp. data are unavailable. The population total shown includes these "missing" persons. Up to 35 families and 200 persons are involved.
- (d) A number of pages in the Deerfield Twp. group are incorrectly sequenced. Caution is required to avoid "breaking up" family groups. I corrected for this in these listings.
- (e) The last page of this census, containing Town of Berlin data, is grouped with the images for Traverse Co., MN.

=====

 Samples of the "Family Friendly" format

Surname, Soundex Page Name(s) & Age(s)

- 1880 Haberman, H165 103A Wenzl 62, Rosie 60, Jacob 29, Adolphus 24, Ferdinand 19, Carrie 17
 Haberman, H165 107A Vencil 39, Clara 37, Mary 17, Vencil 15, Threse 13, Manuel 11, Paul 8, John 6, Peter 4, Jacob 2, Annie d1
- 1900 Hubberman, H165 144B John 26, Kate 20, John 1
 Hoberman, H165 177A Wencil 58, Thressy 56, Rosy 16, Melia 12, Stena 11, Josie 10
- 1910 Habrman, H165 277B Wencil 69, Thressia 67, Amelia 21, Stanislav 20
 Haberman, H165 226B John J. 35, Kathrine 30, John W. 11,

Joseph 8, Elizabeth 5, Clara 3, George 8m
 1920 Haberman, H165 45A Vencil 79, Thresa 77
 Haberman, H165 146B John 46, Katherine 40, John R 21,
 Joseph R 18, Elizabeth 14, Clara 12,
 George 10, Albert 8, Louise 5, Paul 2
 1930 Haberman, H165 189A Kate 50, George 20, Albert 18, Louise 15,
 Paul 13

- Notes: 1. This composite shows entries from the 1880 - 1930 censuses and covers four generations of my family.
 2. The <year> identification appears ONLY in this sample.
 3. Notice the variety of spellings, names and nicknames.

 Explanation for Special Notations appearing in the listings

- * indicates multiple letters as unreadable
- ~ indicates one letter as unreadable
- ? indicates that the previous letter is uncertain
- or -- indicates no entry in that column
- (?) indicates that the name is an 'educated' guess
- (F) indicates a Female Person but an unreadable name
- (M) indicates a Male Person but an unreadable name
- m# indicates an age in months (for children younger than 1)
- d# indicates an age in days (for children younger than 1 month)

=====

This format, called "Family Friendly", evolved as a way to maintain some of the family relationship information from the census listings. Each new entry in the "Surname" column results from any of the following factors:

1. A new "household" marked in the census
2. A new "family" marked in the census
3. A new Surname occurring in the census
4. A 'continued' listing appearing on a new page

For each new "Surname" entry, a Soundex Code is also shown. That person marked as "Head" of the household is named first. Others listed on the same line, or continuing line(s), include those listed as wife, husband, son, daughter, and others sharing the same surname. Sometimes family members are not listed on the same page as the household "Head". This causes the sort routine to generate a new line and "Surname" entry. I have forced the routine to place these cases immediately following the line containing the "Head" of the household. A review of the ages usually suggests that this has happened.

This format fails to show family and household relationship information for:

1. in-laws
2. married daughters and their family
3. the wife's parents and siblings
4. step children
5. adopted children
6. siblings at the State School (Orphan Home)

!! IF YOU HAVE ANY DOUBTS ABOUT POSSIBLE FAMILY RELATIONSHIPS, !!
 !! YOU MUST OBTAIN AND CAREFULLY EXAMINE THE CENSUS IMAGES! !!

=====

 Notes

 =====

1. The SURNAME "Sister" is utilized to identify the Sisters at the Sacred Heart Convent.
2. The Soundex Index: This code number is intended to assist you in finding SURNAMES that sound alike. One flaw with this code is that it is based on "English" phonics - so it may work poorly for French or Native American etc. names. Another problem occurs for those with "prefixed" names (other than Mc- and Mac-) because these names are sometimes coded with and sometimes without the prefix.
3. For those names flagged as only partially readable, an attempt to determine a possible Soundex Index was made. The zero "0" is used to "pad" the index to its proper length.
4. 115 is the age of oldest person listed. 1 day is the age of the youngest person listed.
5. About 385 persons have been omitted from these listings because of missing pages and at least 37 SURNAMES lacking a readable first letter. 61 First Names are entirely unreadable. A number of names are flagged as partially readable.
6. The listing of "Landowners of Record" for Steele County in 1879 is available. Information from this may be useful in finding the information missing from lost and unreadable pages from the 1880 census.
7. A summary of the information contained in the 1880 Federal Census Records (images) is contained in a separate file.

John Haberman

Made available to The Steele Co. genealogy pages by: John Haberman

=====

These files contain all of the readable names as extracted from the microfilmed 1880 Federal Census page images for Steele County, Minnesota. The official date of the census was June 1, 1880. In addition to the SURNAME, Census Page, First Name and Age, I have added the Soundex code corresponding to each SURNAME. The "Enumeration District" Table, below, allows you to associate a census page with a township, city or village.

These files represent my best efforts at interpreting the text from the images. Others reviewing the images will interpret the text differently. The microfilm images are often of low quality. The census taker's penmanship is sometimes very poor. Time was not kind to the written text: the ink was absorbed by the paper yielding a 'fat squiggle' instead of written text and many images indicate paper discoloration (darkening) making the writing often difficult to read. The Clinton Falls Township pages are severely degraded and are essentially unreadable.

The SURNAMES are ordered alphabetically. I have chosen to use a "family friendly" format that preserves much of the family information from the census listings.

If you don't find the person(s) you seek, be very creative with alternate spellings and possible misspellings. The spelling of the census takers was often "creative". They generally spelled the names "as they heard them" (i.e., phonetically). Some of the census takers also had the (bad) habit of using initials instead of names. Reading the images was sometimes difficult but especially so when poor penmanship is combined with strings of "m", "n", "u", "w", "e", "i", "r", "s", etc. letters. A special "problem" that with the 1880 census images is the use of 'old style' written scripts especially for the letters "s", "f" and "ss". I have chosen to NOT change the 'appearance' of the name: thus the name "Agnes" typically appears to be spelled "Agnef". (My experiences interpreting the census images suggest that a given person's name will have an alternate spelling about 25% of the time.)

I made few attempts to correct 'obvious' spelling mistakes. Occasionally I made an "educated guess" about a name. In other cases I "flagged" names as partially unreadable. In a few instances the SURNAME was entirely unreadable.

=====

Census Enumeration Districts, Steele County, 1880

Census Pages	Enumeration District	Population
1 - 8	Merton Township	756
9 - 18	Havana Township	851
19 - 26	Aurora Township	600
27 - 32	Blooming Prairie Township	562
33 - 36	Blooming Prairie Village	338
37 - 44	Medford Township	761
45 - 53	Clinton Falls Township	503 (a)
54 - 61	Owatonna Township	584
62 - 93	Owatanna City	3161
94 - 102	Somerset Township	811 (b)
103 - 108	Summit Township	536 (c)
109 - 122	Deerfield Township	858 (d)
123 - 131	Meriden Township	809
132 - 138	Lemond Township	649
139 - 147	Berlin Township	683 (e)

Total		12262

- (a) The CLINTON FALLS Twp. pages are all badly degraded. For practical purposes, they are unreadable! In a few instances I was able to 'logically deduce' a surname based on readable fragments along with other available records. These names are flagged with the percent (%) symbol.
- (b) One page in the Somerset Twp. group is not sequenced properly. I corrected this to preserve family grouping.
- (c) Several pages of Summit Twp. data are unavailable. The population total shown includes these "missing" persons. Up to 35 families and 200 persons are involved.
- (d) A number of pages in the Deerfield Twp. group are incorrectly sequenced. Caution is required to avoid "breaking up" family groups. I corrected for this in these listings.
- (e) The last page of this census, containing Town of Berlin data, is grouped with the images for Traverse Co., MN.

=====

 Samples of the "Family Friendly" format

Surname, Soundex Page Name(s) & Age(s)

- 1880 Haberman, H165 103A Wenzl 62, Rosie 60, Jacob 29, Adolphus 24, Ferdinand 19, Carrie 17
 Haberman, H165 107A Vencil 39, Clara 37, Mary 17, Vencil 15, Threse 13, Manuel 11, Paul 8, John 6, Peter 4, Jacob 2, Annie d1
- 1900 Hubberman, H165 144B John 26, Kate 20, John 1
 Hoberman, H165 177A Wencil 58, Thressy 56, Rosy 16, Melia 12, Stena 11, Josie 10
- 1910 Habrman, H165 277B Wencil 69, Thressia 67, Amelia 21, Stanislav 20
 Haberman, H165 226B John J. 35, Kathrine 30, John W. 11,

Joseph 8, Elizabeth 5, Clara 3, George 8m
 1920 Haberman, H165 45A Vencil 79, Thresa 77
 Haberman, H165 146B John 46, Katherine 40, John R 21,
 Joseph R 18, Elizabeth 14, Clara 12,
 George 10, Albert 8, Louise 5, Paul 2
 1930 Haberman, H165 189A Kate 50, George 20, Albert 18, Louise 15,
 Paul 13

- Notes: 1. This composite shows entries from the 1880 - 1930 censuses and covers four generations of my family.
 2. The <year> identification appears ONLY in this sample.
 3. Notice the variety of spellings, names and nicknames.

 Explanation for Special Notations appearing in the listings

- * indicates multiple letters as unreadable
- ~ indicates one letter as unreadable
- ? indicates that the previous letter is uncertain
- or -- indicates no entry in that column
- (?) indicates that the name is an 'educated' guess
- (F) indicates a Female Person but an unreadable name
- (M) indicates a Male Person but an unreadable name
- m# indicates an age in months (for children younger than 1)
- d# indicates an age in days (for children younger than 1 month)

=====

This format, called "Family Friendly", evolved as a way to maintain some of the family relationship information from the census listings. Each new entry in the "Surname" column results from any of the following factors:

1. A new "household" marked in the census
2. A new "family" marked in the census
3. A new Surname occurring in the census
4. A 'continued' listing appearing on a new page

For each new "Surname" entry, a Soundex Code is also shown. That person marked as "Head" of the household is named first. Others listed on the same line, or continuing line(s), include those listed as wife, husband, son, daughter, and others sharing the same surname. Sometimes family members are not listed on the same page as the household "Head". This causes the sort routine to generate a new line and "Surname" entry. I have forced the routine to place these cases immediately following the line containing the "Head" of the household. A review of the ages usually suggests that this has happened.

This format fails to show family and household relationship information for:

1. in-laws
2. married daughters and their family
3. the wife's parents and siblings
4. step children
5. adopted children
6. siblings at the State School (Orphan Home)

!! IF YOU HAVE ANY DOUBTS ABOUT POSSIBLE FAMILY RELATIONSHIPS, !!
 !! YOU MUST OBTAIN AND CAREFULLY EXAMINE THE CENSUS IMAGES! !!

 Notes

1. The SURNAME "Sister" is utilized to identify the Sisters at the Sacred Heart Convent.
2. The Soundex Index: This code number is intended to assist you in finding SURNAMES that sound alike. One flaw with this code is that it is based on "English" phonics - so it may work poorly for French or Native American etc. names. Another problem occurs for those with "prefixed" names (other than Mc- and Mac-) because these names are sometimes coded with and sometimes without the prefix.
3. For those names flagged as only partially readable, an attempt to determine a possible Soundex Index was made. The zero "0" is used to "pad" the index to its proper length.
4. 115 is the age of oldest person listed. 1 day is the age of the youngest person listed.
5. About 385 persons have been omitted from these listings because of missing pages and at least 37 SURNAMES lacking a readable first letter. 61 First Names are entirely unreadable. A number of names are flagged as partially readable.
6. The listing of "Landowners of Record" for Steele County in 1879 is available. Information from this may be useful in finding the information missing from lost and unreadable pages from the 1880 census.
7. A summary of the information contained in the 1880 Federal Census Records (images) is contained in a separate file.

John Haberman
 March, August, December 2001; March 2002; January 2003

Made available to The Steele Co. genealogy pages by: John Haberman

=====

These files contain all of the readable names as extracted from the microfilmed 1880 Federal Census page images for Steele County, Minnesota. The official date of the census was June 1, 1880. In addition to the SURNAME, Census Page, First Name and Age, I have added the Soundex code corresponding to each SURNAME. The "Enumeration District" Table, below, allows you to associate a census page with a township, city or village.

These files represent my best efforts at interpreting the text from the images. Others reviewing the images will interpret the text differently. The microfilm images are often of low quality. The census taker's penmanship is sometimes very poor. Time was not kind to the written text: the ink was absorbed by the paper yielding a 'fat squiggle' instead of written text and many images indicate paper discoloration (darkening) making the writing often difficult to read. The Clinton Falls Township pages are severely degraded and are essentially unreadable.

The SURNAMES are ordered alphabetically. I have chosen to use a "family friendly" format that preserves much of the family information from the census listings.

If you don't find the person(s) you seek, be very creative with alternate spellings and possible misspellings. The spelling of the census takers was often "creative". They generally spelled the names "as they heard them" (i.e., phonetically). Some of the census takers also had the (bad) habit of using initials instead of names. Reading the images was sometimes difficult but especially so when poor penmanship is combined with strings of "m", "n", "u", "w", "e", "i", "r", "s", etc. letters. A special "problem" that with the 1880 census images is the use of 'old style' written scripts especially for the letters "s", "f" and "ss". I have chosen to NOT change the 'appearance' of the name: thus the name "Agnes" typically appears to be spelled "Agnef". (My experiences interpreting the census images suggest that a given person's name will have an alternate spelling about 25% of the time.)

I made few attempts to correct 'obvious' spelling mistakes. Occasionally I made an "educated guess" about a name. In other cases I "flagged" names as partially unreadable. In a few instances the SURNAME was entirely unreadable.

=====

Census Enumeration Districts, Steele County, 1880

Census Pages	Enumeration District	Population
1 - 8	Merton Township	756
9 - 18	Havana Township	851
19 - 26	Aurora Township	600
27 - 32	Blooming Prairie Township	562
33 - 36	Blooming Prairie Village	338
37 - 44	Medford Township	761
45 - 53	Clinton Falls Township	503 (a)
54 - 61	Owatonna Township	584
62 - 93	Owatanna City	3161
94 - 102	Somerset Township	811 (b)
103 - 108	Summit Township	536 (c)
109 - 122	Deerfield Township	858 (d)
123 - 131	Meriden Township	809
132 - 138	Lemond Township	649
139 - 147	Berlin Township	683 (e)

Total		12262

- (a) The CLINTON FALLS Twp. pages are all badly degraded. For practical purposes, they are unreadable! In a few instances I was able to 'logically deduce' a surname based on readable fragments along with other available records. These names are flagged with the percent (%) symbol.
- (b) One page in the Somerset Twp. group is not sequenced properly. I corrected this to preserve family grouping.
- (c) Several pages of Summit Twp. data are unavailable. The population total shown includes these "missing" persons. Up to 35 families and 200 persons are involved.
- (d) A number of pages in the Deerfield Twp. group are incorrectly sequenced. Caution is required to avoid "breaking up" family groups. I corrected for this in these listings.
- (e) The last page of this census, containing Town of Berlin data, is grouped with the images for Traverse Co., MN.

=====

 Samples of the "Family Friendly" format

Surname, Soundex Page Name(s) & Age(s)

- 1880 Haberman, H165 103A Wenzl 62, Rosie 60, Jacob 29, Adolphus 24, Ferdinand 19, Carrie 17

 Hoberman, H165 177A Wencil 58, Thressy 56, Rosy 16, Melia 12, Stena 11, Josie 10
- 1910 Habrman, H165 277B Wencil 69, Thressia 67, Amelia 21, Stanislav 20
 Haberman, H165 226B John J. 35, Kathrine 30, John W. 11,

Joseph 8, Elizabeth 5, Clara 3, George 8m
 1920 Haberman, H165 45A Vencil 79, Thresa 77
 Haberman, H165 146B John 46, Katherine 40, John R 21,
 Joseph R 18, Elizabeth 14, Clara 12,
 George 10, Albert 8, Louise 5, Paul 2
 1930 Haberman, H165 189A Kate 50, George 20, Albert 18, Louise 15,
 Paul 13

- Notes: 1. This composite shows entries from the 1880 - 1930 censuses and covers four generations of my family.
 2. The <year> identification appears ONLY in this sample.
 3. Notice the variety of spellings, names and nicknames.

 Explanation for Special Notations appearing in the listings

- * indicates multiple letters as unreadable
- ~ indicates one letter as unreadable
- ? indicates that the previous letter is uncertain
- or -- indicates no entry in that column
- (?) indicates that the name is an 'educated' guess
- (F) indicates a Female Person but an unreadable name
- (M) indicates a Male Person but an unreadable name
- m# indicates an age in months (for children younger than 1)
- d# indicates an age in days (for children younger than 1 month)

=====

This format, called "Family Friendly", evolved as a way to maintain some of the family relationship information from the census listings. Each new entry in the "Surname" column results from any of the following factors:

1. A new "household" marked in the census
2. A new "family" marked in the census
3. A new Surname occurring in the census
4. A 'continued' listing appearing on a new page

For each new "Surname" entry, a Soundex Code is also shown. That person marked as "Head" of the household is named first. Others listed on the same line, or continuing line(s), include those listed as wife, husband, son, daughter, and others sharing the same surname. Sometimes family members are not listed on the same page as the household "Head". This causes the sort routine to generate a new line and "Surname" entry. I have forced the routine to place these cases immediately following the line containing the "Head" of the household. A review of the ages usually suggests that this has happened.

This format fails to show family and household relationship information for:

1. in-laws
2. married daughters and their family
3. the wife's parents and siblings
4. step children
5. adopted children
6. siblings at the State School (Orphan Home)

!! IF YOU HAVE ANY DOUBTS ABOUT POSSIBLE FAMILY RELATIONSHIPS, !!
 !! YOU MUST OBTAIN AND CAREFULLY EXAMINE THE CENSUS IMAGES! !!

=====

 Notes

 =====

1. The SURNAME "Sister" is utilized to identify the Sisters at the Sacred Heart Convent.
2. The Soundex Index: This code number is intended to assist you in finding SURNAMES that sound alike. One flaw with this code is that it is based on "English" phonics - so it may work poorly for French or Native American etc. names. Another problem occurs for those with "prefixed" names (other than Mc- and Mac-) because these names are sometimes coded with and sometimes without the prefix.
3. For those names flagged as only partially readable, an attempt to determine a possible Soundex Index was made. The zero "0" is used to "pad" the index to its proper length.
4. 115 is the age of oldest person listed. 1 day is the age of the youngest person listed.
5. About 385 persons have been omitted from these listings because of missing pages and at least 37 SURNAMES lacking a readable first letter. 61 First Names are entirely unreadable. A number of names are flagged as partially readable.
6. The listing of "Landowners of Record" for Steele County in 1879 is available. Information from this may be useful in finding the information missing from lost and unreadable pages from the 1880 census.
7. A summary of the information contained in the 1880 Federal Census Records (images) is contained in a separate file.

John Haberman

Made available to The Steele Co. genealogy pages by: John Haberman

=====

These files contain all of the readable names as extracted from the microfilmed 1880 Federal Census page images for Steele County, Minnesota. The official date of the census was June 1, 1880. In addition to the SURNAME, Census Page, First Name and Age, I have added the Soundex code corresponding to each SURNAME. The "Enumeration District" Table, below, allows you to associate a census page with a township, city or village.

These files represent my best efforts at interpreting the text from the images. Others reviewing the images will interpret the text differently. The microfilm images are often of low quality. The census taker's penmanship is sometimes very poor. Time was not kind to the written text: the ink was absorbed by the paper yielding a 'fat squiggle' instead of written text and many images indicate paper discoloration (darkening) making the writing often difficult to read. The Clinton Falls Township pages are severely degraded and are essentially unreadable.

The SURNAMES are ordered alphabetically. I have chosen to use a "family friendly" format that preserves much of the family information from the census listings.

If you don't find the person(s) you seek, be very creative with alternate spellings and possible misspellings. The spelling of the census takers was often "creative". They generally spelled the names "as they heard them" (i.e., phonetically). Some of the census takers also had the (bad) habit of using initials instead of names. Reading the images was sometimes difficult but especially so when poor penmanship is combined with strings of "m", "n", "u", "w", "e", "i", "r", "s", etc. letters. A special "problem" that with the 1880 census images is the use of 'old style' written scripts especially for the letters "s", "f" and "ss". I have chosen to NOT change the 'appearance' of the name: thus the name "Agnes" typically appears to be spelled "Agnef". (My experiences interpreting the census images suggest that a given person's name will have an alternate spelling about 25% of the time.)

I made few attempts to correct 'obvious' spelling mistakes. Occasionally I made an "educated guess" about a name. In other cases I "flagged" names as partially unreadable. In a few instances the SURNAME was entirely unreadable.

=====

Census Enumeration Districts, Steele County, 1880

Census Pages	Enumeration District	Population
1 - 8	Merton Township	756
9 - 18	Havana Township	851
19 - 26	Aurora Township	600
27 - 32	Blooming Prairie Township	562
33 - 36	Blooming Prairie Village	338
37 - 44	Medford Township	761
45 - 53	Clinton Falls Township	503 (a)
54 - 61	Owatonna Township	584
62 - 93	Owatonna City	3161
94 - 102	Somerset Township	811 (b)
103 - 108	Summit Township	536 (c)
109 - 122	Deerfield Township	858 (d)
123 - 131	Meriden Township	809
132 - 138	Lemond Township	649
139 - 147	Berlin Township	683 (e)

Total		12262

- (a) The CLINTON FALLS Twp. pages are all badly degraded. For practical purposes, they are unreadable! In a few instances I was able to 'logically deduce' a surname based on readable fragments along with other available records. These names are flagged with the percent (%) symbol.
- (b) One page in the Somerset Twp. group is not sequenced properly. I corrected this to preserve family grouping.
- (c) Several pages of Summit Twp. data are unavailable. The population total shown includes these "missing" persons. Up to 35 families and 200 persons are involved.
- (d) A number of pages in the Deerfield Twp. group are incorrectly sequenced. Caution is required to avoid "breaking up" family groups. I corrected for this in these listings.
- (e) The last page of this census, containing Town of Berlin data, is grouped with the images for Traverse Co., MN.

=====

 Samples of the "Family Friendly" format

Surname, Soundex Page Name(s) & Age(s)

- 1880 Haberman, H165 103A Wenzl 62, Rosie 60, Jacob 29, Adolphus 24, Ferdinand 19, Carrie 17
- Haberman, H165 107A Vencil 39, Clara 37, Mary 17, Vencil 15, Threse 13, Manuel 11, Paul 8, John 6, Peter 4, Jacob 2, Annie d1
- 1900 Hubberman, H165 144B John 26, Kate 20, John 1
- Hoberman, H165 177A Wencil 58, Thressy 56, Rosy 16, Melia 12, Stena 11, Josie 10
- 1910 Habrman, H165 277B Wencil 69, Thressia 67, Amelia 21, Stanislav 20
- Haberman, H165 226B John J. 35, Kathrine 30, John W. 11,

Joseph 8, Elizabeth 5, Clara 3, George 8m
 1920 Haberman, H165 45A Vencil 79, Thresa 77
 Haberman, H165 146B John 46, Katherine 40, John R 21,
 Joseph R 18, Elizabeth 14, Clara 12,
 George 10, Albert 8, Louise 5, Paul 2
 1930 Haberman, H165 189A Kate 50, George 20, Albert 18, Louise 15,
 Paul 13

- Notes: 1. This composite shows entries from the 1880 - 1930 censuses and covers four generations of my family.
 2. The <year> identification appears ONLY in this sample.
 3. Notice the variety of spellings, names and nicknames.

 Explanation for Special Notations appearing in the listings

- * indicates multiple letters as unreadable
- ~ indicates one letter as unreadable
- ? indicates that the previous letter is uncertain
- or -- indicates no entry in that column
- (?) indicates that the name is an 'educated' guess
- (F) indicates a Female Person but an unreadable name
- (M) indicates a Male Person but an unreadable name
- m# indicates an age in months (for children younger than 1)
- d# indicates an age in days (for children younger than 1 month)

=====

This format, called "Family Friendly", evolved as a way to maintain some of the family relationship information from the census listings. Each new entry in the "Surname" column results from any of the following factors:

1. A new "household" marked in the census
2. A new "family" marked in the census
3. A new Surname occurring in the census
4. A 'continued' listing appearing on a new page

For each new "Surname" entry, a Soundex Code is also shown. That person marked as "Head" of the household is named first. Others listed on the same line, or continuing line(s), include those listed as wife, husband, son, daughter, and others sharing the same surname. Sometimes family members are not listed on the same page as the household "Head". This causes the sort routine to generate a new line and "Surname" entry. I have forced the routine to place these cases immediately following the line containing the "Head" of the household. A review of the ages usually suggests that this has happened.

This format fails to show family and household relationship information for:

1. in-laws
2. married daughters and their family
3. the wife's parents and siblings
4. step children
5. adopted children
6. siblings at the State School (Orphan Home)

!! IF YOU HAVE ANY DOUBTS ABOUT POSSIBLE FAMILY RELATIONSHIPS, !!
 !! YOU MUST OBTAIN AND CAREFULLY EXAMINE THE CENSUS IMAGES! !!

=====

 Notes

 =====

1. The SURNAME "Sister" is utilized to identify the Sisters at the Sacred Heart Convent.
2. The Soundex Index: This code number is intended to assist you in finding SURNAMES that sound alike. One flaw with this code is that it is based on "English" phonics - so it may work poorly for French or Native American etc. names. Another problem occurs for those with "prefixed" names (other than Mc- and Mac-) because these names are sometimes coded with and sometimes without the prefix.
3. For those names flagged as only partially readable, an attempt to determine a possible Soundex Index was made. The zero "0" is used to "pad" the index to its proper length.
4. 115 is the age of oldest person listed. 1 day is the age of the youngest person listed.
5. About 385 persons have been omitted from these listings because of missing pages and at least 37 SURNAMES lacking a readable first letter. 61 First Names are entirely unreadable. A number of names are flagged as partially readable.
6. The listing of "Landowners of Record" for Steele County in 1879 is available. Information from this may be useful in finding the information missing from lost and unreadable pages from the 1880 census.
7. A summary of the information contained in the 1880 Federal Census Records (images) is contained in a separate file.

John Haberman

Made available to The Steele Co. genealogy pages by: John Haberman

=====

These files contain all of the readable names as extracted from the microfilmed 1880 Federal Census page images for Steele County, Minnesota. The official date of the census was June 1, 1880. In addition to the SURNAME, Census Page, First Name and Age, I have added the Soundex code corresponding to each SURNAME. The "Enumeration District" Table, below, allows you to associate a census page with a township, city or village.

These files represent my best efforts at interpreting the text from the images. Others reviewing the images will interpret the text differently. The microfilm images are often of low quality. The census taker's penmanship is sometimes very poor. Time was not kind to the written text: the ink was absorbed by the paper yielding a 'fat squiggle' instead of written text and many images indicate paper discoloration (darkening) making the writing often difficult to read. The Clinton Falls Township pages are severely degraded and are essentially unreadable.

The SURNAMES are ordered alphabetically. I have chosen to use a "family friendly" format that preserves much of the family information from the census listings.

If you don't find the person(s) you seek, be very creative with alternate spellings and possible misspellings. The spelling of the census takers was often "creative". They generally spelled the names "as they heard them" (i.e., phonetically). Some of the census takers also had the (bad) habit of using initials instead of names. Reading the images was sometimes difficult but especially so when poor penmanship is combined with strings of "m", "n", "u", "w", "e", "i", "r", "s", etc. letters. A special "problem" that with the 1880 census images is the use of 'old style' written scripts especially for the letters "s", "f" and "ss". I have chosen to NOT change the 'appearance' of the name: thus the name "Agnes" typically appears to be spelled "Agnef". (My experiences interpreting the census images suggest that a given person's name will have an alternate spelling about 25% of the time.)

I made few attempts to correct 'obvious' spelling mistakes. Occasionally I made an "educated guess" about a name. In other cases I "flagged" names as partially unreadable. In a few instances the SURNAME was entirely unreadable.

=====

Census Enumeration Districts, Steele County, 1880

Census Pages	Enumeration District	Population
1 - 8	Merton Township	756
9 - 18	Havana Township	851
19 - 26	Aurora Township	600
27 - 32	Blooming Prairie Township	562
33 - 36	Blooming Prairie Village	338
37 - 44	Medford Township	761
45 - 53	Clinton Falls Township	503 (a)
54 - 61	Owatonna Township	584
62 - 93	Owatanna City	3161
94 - 102	Somerset Township	811 (b)
103 - 108	Summit Township	536 (c)
109 - 122	Deerfield Township	858 (d)
123 - 131	Meriden Township	809
132 - 138	Lemond Township	649
139 - 147	Berlin Township	683 (e)

Total		12262

- (a) The CLINTON FALLS Twp. pages are all badly degraded. For practical purposes, they are unreadable! In a few instances I was able to 'logically deduce' a surname based on readable fragments along with other available records. These names are flagged with the percent (%) symbol.
- (b) One page in the Somerset Twp. group is not sequenced properly. I corrected this to preserve family grouping.
- (c) Several pages of Summit Twp. data are unavailable. The population total shown includes these "missing" persons. Up to 35 families and 200 persons are involved.
- (d) A number of pages in the Deerfield Twp. group are incorrectly sequenced. Caution is required to avoid "breaking up" family groups. I corrected for this in these listings.
- (e) The last page of this census, containing Town of Berlin data, is grouped with the images for Traverse Co., MN.

=====

 Samples of the "Family Friendly" format

Surname, Soundex Page Name(s) & Age(s)

- 1880 Haberman, H165 103A Wenzl 62, Rosie 60, Jacob 29, Adolphus 24, Ferdinand 19, Carrie 17
- Haberman, H165 107A Vencil 39, Clara 37, Mary 17, Vencil 15, Threse 13, Manuel 11, Paul 8, John 6, Peter 4, Jacob 2, Annie d1
- 1900 Hubberman, H165 144B John 26, Kate 20, John 1
- Hoberman, H165 177A Wencil 58, Thressy 56, Rosy 16, Melia 12, Stena 11, Josie 10
- 1910 Habrman, H165 277B Wencil 69, Thressia 67, Amelia 21, Stanislav 20
- Haberman, H165 226B John J. 35, Kathrine 30, John W. 11,

Joseph 8, Elizabeth 5, Clara 3, George 8m
 1920 Haberman, H165 45A Vencil 79, Thresa 77
 Haberman, H165 146B John 46, Katherine 40, John R 21,
 Joseph R 18, Elizabeth 14, Clara 12,
 George 10, Albert 8, Louise 5, Paul 2
 1930 Haberman, H165 189A Kate 50, George 20, Albert 18, Louise 15,
 Paul 13

- Notes: 1. This composite shows entries from the 1880 - 1930 censuses and covers four generations of my family.
 2. The <year> identification appears ONLY in this sample.
 3. Notice the variety of spellings, names and nicknames.

 Explanation for Special Notations appearing in the listings

- * indicates multiple letters as unreadable
- ~ indicates one letter as unreadable
- ? indicates that the previous letter is uncertain
- or -- indicates no entry in that column
- (?) indicates that the name is an 'educated' guess
- (F) indicates a Female Person but an unreadable name
- (M) indicates a Male Person but an unreadable name
- m# indicates an age in months (for children younger than 1)
- d# indicates an age in days (for children younger than 1 month)

=====

This format, called "Family Friendly", evolved as a way to maintain some of the family relationship information from the census listings. Each new entry in the "Surname" column results from any of the following factors:

1. A new "household" marked in the census
2. A new "family" marked in the census
3. A new Surname occurring in the census
4. A 'continued' listing appearing on a new page

For each new "Surname" entry, a Soundex Code is also shown. That person marked as "Head" of the household is named first. Others listed on the same line, or continuing line(s), include those listed as wife, husband, son, daughter, and others sharing the same surname. Sometimes family members are not listed on the same page as the household "Head". This causes the sort routine to generate a new line and "Surname" entry. I have forced the routine to place these cases immediately following the line containing the "Head" of the household. A review of the ages usually suggests that this has happened.

This format fails to show family and household relationship information for:

1. in-laws
2. married daughters and their family
3. the wife's parents and siblings
4. step children
5. adopted children
6. siblings at the State School (Orphan Home)

!! IF YOU HAVE ANY DOUBTS ABOUT POSSIBLE FAMILY RELATIONSHIPS, !!
 !! YOU MUST OBTAIN AND CAREFULLY EXAMINE THE CENSUS IMAGES! !!

=====

 Notes

 =====

1. The SURNAME "Sister" is utilized to identify the Sisters at the Sacred Heart Convent.
2. The Soundex Index: This code number is intended to assist you in finding SURNAMES that sound alike. One flaw with this code is that it is based on "English" phonics - so it may work poorly for French or Native American etc. names. Another problem occurs for those with "prefixed" names (other than Mc- and Mac-) because these names are sometimes coded with and sometimes without the prefix.
3. For those names flagged as only partially readable, an attempt to determine a possible Soundex Index was made. The zero "0" is used to "pad" the index to its proper length.
4. 115 is the age of oldest person listed. 1 day is the age of the youngest person listed.
5. About 385 persons have been omitted from these listings because of missing pages and at least 37 SURNAMES lacking a readable first letter. 61 First Names are entirely unreadable. A number of names are flagged as partially readable.
6. The listing of "Landowners of Record" for Steele County in 1879 is available. Information from this may be useful in finding the information missing from lost and unreadable pages from the 1880 census.
7. A summary of the information contained in the 1880 Federal Census Records (images) is contained in a separate file.

John Haberman
 March, August, December 2001; March 2002; January 2003
