Made available to The Steele Co. genealogy pages by: John Haberman

=====

These files contain the readable names as extracted from the microfilmed 1920 Federal Census page images for Steele County, Minnesota. The official date of the census was January 1, 1920. The census pages are all dated between January 2 and April 6. In addition to the SURNAME, Census Page, First Name and Age, I have added a Soundex Index corresponding to each SURNAME. An "Enumeration District" Table, below, allows you to associate a census page with a township, city or village.

These files represent a "best effort" at interpreting the text from the images. Others reviewing the images will read some text differently. Often the penmanship of the census taker was poor. Some microfilm images are low quality. With time the ink was absorbed into the paper yielding 'smeared' text. Aging of the paper results in darkening that makes some of the text difficult to read.

The SURNAMES are ordered alphabetically in a "family friendly" format. This format preserves much of the family information from the census listings. Proper genealogy requires that YOU MUST VERIFY YOUR FINDINGS BY OBTAINING AND EXAMINING THE ORIGINAL, SOURCE, INFORMATION.

If you don't find the person(s) you seek, be very creative with alternate spellings and possible misspellings. The spelling of the census takers was often "creative". They generally spelled the names "as they heard them" (i.e., phonetically). Reading the images was sometimes difficult but especially so when poor penmanship is combined with strings of "m", "n", "u", "w", "e", "i", "r", "s", etc. letters. (My experiences interpreting the census images suggest that a given person's name will have an alternate spelling about 25% of the time.)

I made few attempts to correct 'obvious' mistakes (spelling, age, relationship etc.) I tried to enter the information as it appears in the images. (Example: several census takers wrote their "o" such that it appears as an "a" or "u".) Rather than indicate some names as totally unreadable I sometimes made an "educated guess" about a name. In other cases I "flagged" names as partially unreadable. However, in a few instances the NAME was totally unreadable.

=====

-----

Census Enumeration Districts, Steele County, 1920

-----

Census Pages	Enumeration District	No.	Notes
1 - 9	Aurora Township	817	
10 - 17	Berlin Township	748	(a)
18 - 21	Ellendale Village	367	(a)
22 - 32	Blooming Prairie Village	1012	
33 - 39	Blooming Prairie Township	698	
40 - 49	Clinton Falls Township	473	
50 - 57	Deerfield Township	754	
58 - 65	Havana Township	718	
66 - 74	Lemond Township	837	
75 - 87	Medford Township	695	
88 - 96	Meriden Township	764	
97 - 103	Merton Township	675	
104 - 119	Owatonna city Ward 1	1513	(a),(b)
120 - 135	Owatonna city Ward 2	1562	(a),(c)
136 - 152	Owatonna city Ward 3	1642	(a),(d)
153 - 165	Owatonna city Ward 4	1266	(e)
166 - 181	Owatonna city Ward 5	1269	(a),(c)
182 - 188	Owatonna Township	609	
189 - 197	Somerset Township	885	
198 - 205	Summit Township	759	
-----			
Total		18063	(f)

The letters "A" & "B" are used to identify the front and back sides respectively of each numbered census page (image.)

- (a) Additions to previously recorded family groups were entered on the last page(s) for this enumeration district.
- (b) Includes the Poor Farm (p. 119A) and Pillsbury Academy (p. 119B)
- (c) Some page images are sequenced incorrectly for this district.
- (d) Includes 393 persons living as the State School for Indigent Children (the "Orphan's Home", pp. 138A - 142A.)
- (e) Includes the Sacred Heart Convent.
- (f) 17 Persons have also been omitted from these listings (but not from this total) because I was unable to determine 7 surnames.

 Haberman, H165 226B John J. 35, Kathrine 30, John W. 11, Joseph 8, Elizabeth 5, Clara 3, George 8m
- 1920 Haberman, H165 45A Vencil 79, Thresa 77  
 Haberman, H165 146B John 46, Katherine 40, John R 21,

Joseph R 18, Elizabeth 14, Clara 12,  
George 10, Albert 8, Louise 5, Paul 2  
1930 Haberman, H165 189A Kate 50, George 20, Albert 18, Louise 15,  
Paul 13

- Notes: 1. This composite shows entries from the 1880 - 1930 censuses and covers four generations of my family.  
2. The <year> identification appears ONLY in this sample.  
3. Notice the variety of spellings, names and nicknames.

-----  
Explanation for Special Notations appearing in the listings  
-----

- \* indicates multiple letters as unreadable
- ~ indicates one letter as unreadable
- ? indicates that the previous letter is uncertain
- or -- indicates no entry in that column
- (?) indicates that the name is an 'educated' guess
- (F) indicates a Female Person but an unreadable name
- (M) indicates a Male Person but an unreadable name
- m# indicates an age in months (for children younger than 1)
- d# indicates an age in days (for children younger than 1 month)

=====

This format, called "Family Friendly", evolved as a way to maintain some of the family relationship information from the census listings. Each new entry in the "Surname" column results from any of the following factors:

1. A new "household" marked in the census
2. A new "family" marked in the census
3. A new Surname occurring in the census
4. A 'continued' listing appearing on a new page

For each new "Surname" entry, a Soundex Code is also shown. That person marked as "Head" of the household is named first. Others listed on the same line, or continuing line(s), include those listed as wife, husband, son, daughter, and others sharing the same surname. Sometimes family members are not listed on the same page as the household "Head". This causes the sort routine to generate a new line and "Surname" entry. I have forced the routine to place these cases immediately following the line containing the "Head" of the household. A review of the ages usually suggests that this has happened.

This format fails to show family and household relationship information for:

1. in-laws
2. married daughters and their family
3. the wife's parents and siblings
4. step children
5. adopted children
6. siblings at the State School (Orphan Home)

!! IF YOU HAVE ANY DOUBTS ABOUT POSSIBLE FAMILY RELATIONSHIPS, !!  
!! YOU MUST OBTAIN AND CAREFULLY EXAMINE THE CENSUS IMAGES! !!

=====

-----

Notes

-----

1. The SURNAME "Sister" has been assigned to the Sisters at the Sacred Heart Convent.
2. The Soundex Index: This code helps to find SURNAMES that sound alike. One flaw is that it is based on "English" phonics (i.e., French or Native American names might not conform.) Another problem occurs for "prefixed" names (other than Mc- and Mac-) since these names may be coded with or without the prefix.
3. For those names flagged as only partially readable, an attempt to determine a possible Soundex Index was made. The zero "0" is used to "pad" the index to its proper length.
4. A summary of the information contained in the 1920 Federal Census Records (images) is contained in a separate file.
5. Some of the enumerators indicated the age of a child under 5 in year and months format. I recorded the "months" information only for those children under 1.
6. It is frequently possible to detect errors in the census data images because several numbering schemes were used. Each page was numbered by the enumerator. Each household and family were sequentially numbered as data was collected. (This is how it is possible to often unite families whose information is listed on different pages.) Each page was numbered when it was submitted in final form by the census taker. Each page image was indexed when it was microfilmed. Each page might also be indexed by the vendor from whom it was obtained.

John Haberman

February 2001; April 2002; January 2003

Made available to The Steele Co. genealogy pages by: John Haberman

=====

These files contain the readable names as extracted from the microfilmed 1920 Federal Census page images for Steele County, Minnesota. The official date of the census was January 1, 1920. The census pages are all dated between January 2 and April 6. In addition to the SURNAME, Census Page, First Name and Age, I have added a Soundex Index corresponding to each SURNAME. An "Enumeration District" Table, below, allows you to associate a census page with a township, city or village.

These files represent a "best effort" at interpreting the text from the images. Others reviewing the images will read some text differently. Often the penmanship of the census taker was poor. Some microfilm images are low quality. With time the ink was absorbed into the paper yielding 'smeared' text. Aging of the paper results in darkening that makes some of the text difficult to read.

The SURNAMES are ordered alphabetically in a "family friendly" format. This format preserves much of the family information from the census listings. Proper genealogy requires that YOU MUST VERIFY YOUR FINDINGS BY OBTAINING AND EXAMINING THE ORIGINAL, SOURCE, INFORMATION.

If you don't find the person(s) you seek, be very creative with alternate spellings and possible misspellings. The spelling of the census takers was often "creative". They generally spelled the names "as they heard them" (i.e., phonetically). Reading the images was sometimes difficult but especially so when poor penmanship is combined with strings of "m", "n", "u", "w", "e", "i", "r", "s", etc. letters. (My experiences interpreting the census images suggest that a given person's name will have an alternate spelling about 25% of the time.)

I made few attempts to correct 'obvious' mistakes (spelling, age, relationship etc.) I tried to enter the information as it appears in the images. (Example: several census takers wrote their "o" such that it appears as an "a" or "u".) Rather than indicate some names as totally unreadable I sometimes made an "educated guess" about a name. In other cases I "flagged" names as partially unreadable. However, in a few instances the NAME was totally unreadable.

=====

-----  
Census Enumeration Districts, Steele County, 1920  
-----

Census Pages	Enumeration District	No.	Notes
1 - 9	Aurora Township	817	
10 - 17	Berlin Township	748	(a)
18 - 21	Ellendale Village	367	(a)
22 - 32	Blooming Prairie Village	1012	
33 - 39	Blooming Prairie Township	698	
40 - 49	Clinton Falls Township	473	
50 - 57	Deerfield Township	754	
58 - 65	Havana Township	718	
66 - 74	Lemond Township	837	
75 - 87	Medford Township	695	
88 - 96	Meriden Township	764	
97 - 103	Merton Township	675	
104 - 119	Owatonna city Ward 1	1513	(a),(b)
120 - 135	Owatonna city Ward 2	1562	(a),(c)
136 - 152	Owatonna city Ward 3	1642	(a),(d)
153 - 165	Owatonna city Ward 4	1266	(e)
166 - 181	Owatonna city Ward 5	1269	(a),(c)
182 - 188	Owatonna Township	609	
189 - 197	Somerset Township	885	
198 - 205	Summit Township	759	
-----			
Total		18063	(f)

The letters "A" & "B" are used to identify the front and back sides respectively of each numbered census page (image.)

- (a) Additions to previously recorded family groups were entered on the last page(s) for this enumeration district.
- (b) Includes the Poor Farm (p. 119A) and Pillsbury Academy (p. 119B)
- (c) Some page images are sequenced incorrectly for this district.
- (d) Includes 393 persons living as the State School for Indigent Children (the "Orphan's Home", pp. 138A - 142A.)
- (e) Includes the Sacred Heart Convent.
- (f) 17 Persons have also been omitted from these listings (but not from this total) because I was unable to determine 7 surnames.

Hoberman, H165 177A Wencil 58, Thressy 56, Rosy 16, Melia 12, Stena 11, Josie 10
- 1910 Habrman, H165 277B Wencil 69, Thressia 67, Amelia 21, Stanislav 20  
Haberman, H165 226B John J. 35, Kathrine 30, John W. 11, Joseph 8, Elizabeth 5, Clara 3, George 8m
- 1920 Haberman, H165 45A Vencil 79, Thresa 77  
Haberman, H165 146B John 46, Katherine 40, John R 21,

Joseph R 18, Elizabeth 14, Clara 12,  
George 10, Albert 8, Louise 5, Paul 2  
1930 Haberman, H165 189A Kate 50, George 20, Albert 18, Louise 15,  
Paul 13

- Notes: 1. This composite shows entries from the 1880 - 1930 censuses and covers four generations of my family.  
2. The <year> identification appears ONLY in this sample.  
3. Notice the variety of spellings, names and nicknames.

-----  
Explanation for Special Notations appearing in the listings  
-----

- \* indicates multiple letters as unreadable
- ~ indicates one letter as unreadable
- ? indicates that the previous letter is uncertain
- or -- indicates no entry in that column
- (?) indicates that the name is an 'educated' guess
- (F) indicates a Female Person but an unreadable name
- (M) indicates a Male Person but an unreadable name
- m# indicates an age in months (for children younger than 1)
- d# indicates an age in days (for children younger than 1 month)

=====

This format, called "Family Friendly", evolved as a way to maintain some of the family relationship information from the census listings. Each new entry in the "Surname" column results from any of the following factors:

1. A new "household" marked in the census
2. A new "family" marked in the census
3. A new Surname occurring in the census
4. A 'continued' listing appearing on a new page

For each new "Surname" entry, a Soundex Code is also shown. That person marked as "Head" of the household is named first. Others listed on the same line, or continuing line(s), include those listed as wife, husband, son, daughter, and others sharing the same surname. Sometimes family members are not listed on the same page as the household "Head". This causes the sort routine to generate a new line and "Surname" entry. I have forced the routine to place these cases immediately following the line containing the "Head" of the household. A review of the ages usually suggests that this has happened.

This format fails to show family and household relationship information for:

1. in-laws
2. married daughters and their family
3. the wife's parents and siblings
4. step children
5. adopted children
6. siblings at the State School (Orphan Home)

!! IF YOU HAVE ANY DOUBTS ABOUT POSSIBLE FAMILY RELATIONSHIPS, !!  
!! YOU MUST OBTAIN AND CAREFULLY EXAMINE THE CENSUS IMAGES! !!

=====

-----

Notes

-----

1. The SURNAME "Sister" has been assigned to the Sisters at the Sacred Heart Convent.
2. The Soundex Index: This code helps to find SURNAMES that sound alike. One flaw is that it is based on "English" phonics (i.e., (French or Native American names might not conform.) Another problem occurs for "prefixed" names (other than Mc- and Mac-) since these names may be coded with or without the prefix.
3. For those names flagged as only partially readable, an attempt to determine a possible Soundex Index was made. The zero "0" is used to "pad" the index to its proper length.
4. A summary of the information contained in the 1920 Federal Census Records (images) is contained in a separate file.
5. Some of the enumerators indicated the age of a child under 5 in year and months format. I recorded the "months" information only for those children under 1.
6. It is frequently possible to detect errors in the census data images because several numbering schemes were used. Each page was numbered by the enumerator. Each household and family were sequentially numbered as data was collected. (This is how it is possible to often unite families whose information is listed on different pages.) Each page was numbered when it was submitted in final form by the census taker. Each page image was indexed when it was microfilmed. Each page might also be indexed by the vendor from whom it was obtained.

John Haberman

February 2001; April 2002; January 2003

Made available to The Steele Co. genealogy pages by: John Haberman

=====

These files contain the readable names as extracted from the microfilmed 1920 Federal Census page images for Steele County, Minnesota. The official date of the census was January 1, 1920. The census pages are all dated between January 2 and April 6. In addition to the SURNAME, Census Page, First Name and Age, I have added a Soundex Index corresponding to each SURNAME. An "Enumeration District" Table, below, allows you to associate a census page with a township, city or village.

These files represent a "best effort" at interpreting the text from the images. Others reviewing the images will read some text differently. Often the penmanship of the census taker was poor. Some microfilm images are low quality. With time the ink was absorbed into the paper yielding 'smeared' text. Aging of the paper results in darkening that makes some of the text difficult to read.

The SURNAMES are ordered alphabetically in a "family friendly" format. This format preserves much of the family information from the census listings. Proper genealogy requires that YOU MUST VERIFY YOUR FINDINGS BY OBTAINING AND EXAMINING THE ORIGINAL, SOURCE, INFORMATION.

If you don't find the person(s) you seek, be very creative with alternate spellings and possible misspellings. The spelling of the census takers was often "creative". They generally spelled the names "as they heard them" (i.e., phonetically). Reading the images was sometimes difficult but especially so when poor penmanship is combined with strings of "m", "n", "u", "w", "e", "i", "r", "s", etc. letters. (My experiences interpreting the census images suggest that a given person's name will have an alternate spelling about 25% of the time.)

I made few attempts to correct 'obvious' mistakes (spelling, age, relationship etc.) I tried to enter the information as it appears in the images. (Example: several census takers wrote their "o" such that it appears as an "a" or "u".) Rather than indicate some names as totally unreadable I sometimes made an "educated guess" about a name. In other cases I "flagged" names as partially unreadable. However, in a few instances the NAME was totally unreadable.

Census Pages	Enumeration District	No.	Notes
1 - 9	Aurora Township	817	
10 - 17	Berlin Township	748	(a)
18 - 21	Ellendale Village	367	(a)
22 - 32	Blooming Prairie Village	1012	
33 - 39	Blooming Prairie Township	698	
40 - 49	Clinton Falls Township	473	
50 - 57	Deerfield Township	754	
58 - 65	Havana Township	718	
66 - 74	Lemond Township	837	
75 - 87	Medford Township	695	
88 - 96	Meriden Township	764	
97 - 103	Merton Township	675	
104 - 119	Owatonna city Ward 1	1513	(a),(b)
120 - 135	Owatonna city Ward 2	1562	(a),(c)
136 - 152	Owatonna city Ward 3	1642	(a),(d)
153 - 165	Owatonna city Ward 4	1266	(e)
166 - 181	Owatonna city Ward 5	1269	(a),(c)
182 - 188	Owatonna Township	609	
189 - 197	Somerset Township	885	
198 - 205	Summit Township	759	
-----			
Total		18063	(f)

The letters "A" & "B" are used to identify the front and back sides respectively of each numbered census page (image.)

- (a) Additions to previously recorded family groups were entered on the last page(s) for this enumeration district.
- (b) Includes the Poor Farm (p. 119A) and Pillsbury Academy (p. 119B)
- (c) Some page images are sequenced incorrectly for this district.
- (d) Includes 393 persons living as the State School for Indigent Children (the "Orphan's Home", pp. 138A - 142A.)
- (e) Includes the Sacred Heart Convent.
- (f) 17 Persons have also been omitted from these listings (but not from this total) because I was unable to determine 7 surnames.

 -----

Surname, Soundex Page Name(s) & Age(s)  
 -----

- 1880 Haberman, H165 103A Wenzl 62, Rosie 60, Jacob 29, Adolphus 24, Ferdinand 19, Carrie 17
- Haberman, H165 107A Vencil 39, Clara 37, Mary 17, Vencil 15, Threse 13, Manuel 11, Paul 8, John 6, Peter 4, Jacob 2, Annie d1
- 1900 Hubberman, H165 144B John 26, Kate 20, John 1
- Hoberman, H165 177A Wencil 58, Thressy 56, Rosy 16, Melia 12, Stena 11, Josie 10
- 1910 Habrman, H165 277B Wencil 69, Thressia 67, Amelia 21, Stanislav 20
- Haberman, H165 226B John J. 35, Kathrine 30, John W. 11, Joseph 8, Elizabeth 5, Clara 3, George 8m
- 1920 Haberman, H165 45A Vencil 79, Thresa 77
- Haberman, H165 146B John 46, Katherine 40, John R 21,

Joseph R 18, Elizabeth 14, Clara 12,  
George 10, Albert 8, Louise 5, Paul 2  
1930 Haberman, H165 189A Kate 50, George 20, Albert 18, Louise 15,  
Paul 13

- Notes: 1. This composite shows entries from the 1880 - 1930  
censuses and covers four generations of my family.  
2. The <year> identification appears ONLY in this sample.  
3. Notice the variety of spellings, names and nicknames.

-----  
Explanation for Special Notations appearing in the listings  
-----

- \* indicates multiple letters as unreadable
- ~ indicates one letter as unreadable
- ? indicates that the previous letter is uncertain
- or -- indicates no entry in that column
- (?) indicates that the name is an 'educated' guess
- (F) indicates a Female Person but an unreadable name
- (M) indicates a Male Person but an unreadable name
- m# indicates an age in months (for children younger than 1)
- d# indicates an age in days (for children younger than 1 month)

=====

This format, called "Family Friendly", evolved as a way to maintain some of the family relationship information from the census listings. Each new entry in the "Surname" column results from any of the following factors:

1. A new "household" marked in the census
2. A new "family" marked in the census
3. A new Surname occurring in the census
4. A 'continued' listing appearing on a new page

For each new "Surname" entry, a Soundex Code is also shown. That person marked as "Head" of the household is named first. Others listed on the same line, or continuing line(s), include those listed as wife, husband, son, daughter, and others sharing the same surname. Sometimes family members are not listed on the same page as the household "Head". This causes the sort routine to generate a new line and "Surname" entry. I have forced the routine to place these cases immediately following the line containing the "Head" of the household. A review of the ages usually suggests that this has happened.

This format fails to show family and household relationship information for:

1. in-laws
2. married daughters and their family
3. the wife's parents and siblings
4. step children
5. adopted children
6. siblings at the State School (Orphan Home)

!! IF YOU HAVE ANY DOUBTS ABOUT POSSIBLE FAMILY RELATIONSHIPS, !!  
!! YOU MUST OBTAIN AND CAREFULLY EXAMINE THE CENSUS IMAGES! !!

=====

-----

Notes

-----

1. The SURNAME "Sister" has been assigned to the Sisters at the Sacred Heart Convent.
2. The Soundex Index: This code helps to find SURNAMES that sound alike. One flaw is that it is based on "English" phonics (i.e., (French or Native American names might not conform.) Another problem occurs for "prefixed" names (other than Mc- and Mac-) since these names may be coded with or without the prefix.
3. For those names flagged as only partially readable, an attempt to determine a possible Soundex Index was made. The zero "0" is used to "pad" the index to its proper length.
4. A summary of the information contained in the 1920 Federal Census Records (images) is contained in a separate file.
5. Some of the enumerators indicated the age of a child under 5 in year and months format. I recorded the "months" information only for those children under 1.
6. It is frequently possible to detect errors in the census data images because several numbering schemes were used. Each page was numbered by the enumerator. Each household and family were sequentially numbered as data was collected. (This is how it is possible to often unite families whose information is listed on different pages.) Each page was numbered when it was submitted in final form by the census taker. Each page image was indexed when it was microfilmed. Each page might also be indexed by the vendor from whom it was obtained.

John Haberman

February 2001; April 2002; January 2003

Made available to The Steele Co. genealogy pages by: John Haberman

=====

These files contain the readable names as extracted from the microfilmed 1920 Federal Census page images for Steele County, Minnesota. The official date of the census was January 1, 1920. The census pages are all dated between January 2 and April 6. In addition to the SURNAME, Census Page, First Name and Age, I have added a Soundex Index corresponding to each SURNAME. An "Enumeration District" Table, below, allows you to associate a census page with a township, city or village.

These files represent a "best effort" at interpreting the text from the images. Others reviewing the images will read some text differently. Often the penmanship of the census taker was poor. Some microfilm images are low quality. With time the ink was absorbed into the paper yielding 'smeared' text. Aging of the paper results in darkening that makes some of the text difficult to read.

The SURNAMES are ordered alphabetically in a "family friendly" format. This format preserves much of the family information from the census listings. Proper genealogy requires that YOU MUST VERIFY YOUR FINDINGS BY OBTAINING AND EXAMINING THE ORIGINAL, SOURCE, INFORMATION.

If you don't find the person(s) you seek, be very creative with alternate spellings and possible misspellings. The spelling of the census takers was often "creative". They generally spelled the names "as they heard them" (i.e., phonetically). Reading the images was sometimes difficult but especially so when poor penmanship is combined with strings of "m", "n", "u", "w", "e", "i", "r", "s", etc. letters. (My experiences interpreting the census images suggest that a given person's name will have an alternate spelling about 25% of the time.)

I made few attempts to correct 'obvious' mistakes (spelling, age, relationship etc.) I tried to enter the information as it appears in the images. (Example: several census takers wrote their "o" such that it appears as an "a" or "u".) Rather than indicate some names as totally unreadable I sometimes made an "educated guess" about a name. In other cases I "flagged" names as partially unreadable. However, in a few instances the NAME was totally unreadable.

=====

-----  
Census Enumeration Districts, Steele County, 1920  
-----

Census Pages	Enumeration District	No.	Notes
1 - 9	Aurora Township	817	
10 - 17	Berlin Township	748	(a)
18 - 21	Ellendale Village	367	(a)
22 - 32	Blooming Prairie Village	1012	
33 - 39	Blooming Prairie Township	698	
40 - 49	Clinton Falls Township	473	
50 - 57	Deerfield Township	754	
58 - 65	Havana Township	718	
66 - 74	Lemond Township	837	
75 - 87	Medford Township	695	
88 - 96	Meriden Township	764	
97 - 103	Merton Township	675	
104 - 119	Owatonna city Ward 1	1513	(a),(b)
120 - 135	Owatonna city Ward 2	1562	(a),(c)
136 - 152	Owatonna city Ward 3	1642	(a),(d)
153 - 165	Owatonna city Ward 4	1266	(e)
166 - 181	Owatonna city Ward 5	1269	(a),(c)
182 - 188	Owatonna Township	609	
189 - 197	Somerset Township	885	
198 - 205	Summit Township	759	
-----			
Total		18063	(f)

The letters "A" & "B" are used to identify the front and back sides respectively of each numbered census page (image.)

- (a) Additions to previously recorded family groups were entered on the last page(s) for this enumeration district.
- (b) Includes the Poor Farm (p. 119A) and Pillsbury Academy (p. 119B)
- (c) Some page images are sequenced incorrectly for this district.
- (d) Includes 393 persons living as the State School for Indigent Children (the "Orphan's Home", pp. 138A - 142A.)
- (e) Includes the Sacred Heart Convent.
- (f) 17 Persons have also been omitted from these listings (but not from this total) because I was unable to determine 7 surnames.

Haberman, H165 226B John J. 35, Kathrine 30, John W. 11, Joseph 8, Elizabeth 5, Clara 3, George 8m
- 1920 Haberman, H165 45A Vencil 79, Thresa 77  
Haberman, H165 146B John 46, Katherine 40, John R 21,

Joseph R 18, Elizabeth 14, Clara 12,  
George 10, Albert 8, Louise 5, Paul 2  
1930 Haberman, H165 189A Kate 50, George 20, Albert 18, Louise 15,  
Paul 13

- Notes: 1. This composite shows entries from the 1880 - 1930 censuses and covers four generations of my family.  
2. The <year> identification appears ONLY in this sample.  
3. Notice the variety of spellings, names and nicknames.

-----  
Explanation for Special Notations appearing in the listings  
-----

- \* indicates multiple letters as unreadable
- ~ indicates one letter as unreadable
- ? indicates that the previous letter is uncertain
- or -- indicates no entry in that column
- (?) indicates that the name is an 'educated' guess
- (F) indicates a Female Person but an unreadable name
- (M) indicates a Male Person but an unreadable name
- m# indicates an age in months (for children younger than 1)
- d# indicates an age in days (for children younger than 1 month)

=====

This format, called "Family Friendly", evolved as a way to maintain some of the family relationship information from the census listings. Each new entry in the "Surname" column results from any of the following factors:

1. A new "household" marked in the census
2. A new "family" marked in the census
3. A new Surname occurring in the census
4. A 'continued' listing appearing on a new page

For each new "Surname" entry, a Soundex Code is also shown. That person marked as "Head" of the household is named first. Others listed on the same line, or continuing line(s), include those listed as wife, husband, son, daughter, and others sharing the same surname. Sometimes family members are not listed on the same page as the household "Head". This causes the sort routine to generate a new line and "Surname" entry. I have forced the routine to place these cases immediately following the line containing the "Head" of the household. A review of the ages usually suggests that this has happened.

This format fails to show family and household relationship information for:

1. in-laws
2. married daughters and their family
3. the wife's parents and siblings
4. step children
5. adopted children
6. siblings at the State School (Orphan Home)

!! IF YOU HAVE ANY DOUBTS ABOUT POSSIBLE FAMILY RELATIONSHIPS, !!  
!! YOU MUST OBTAIN AND CAREFULLY EXAMINE THE CENSUS IMAGES! !!

=====

----

Notes

-----

1. The SURNAME "Sister" has been assigned to the Sisters at the Sacred Heart Convent.
2. The Soundex Index: This code helps to find SURNAMES that sound alike. One flaw is that it is based on "English" phonics (i.e., (French or Native American names might not conform.) Another problem occurs for "prefixed" names (other than Mc- and Mac-) since these names may be coded with or without the prefix.
3. For those names flagged as only partially readable, an attempt to determine a possible Soundex Index was made. The zero "0" is used to "pad" the index to its proper length.
4. A summary of the information contained in the 1920 Federal Census Records (images) is contained in a separate file.
5. Some of the enumerators indicated the age of a child under 5 in year and months format. I recorded the "months" information only for those children under 1.
6. It is frequently possible to detect errors in the census data images because several numbering schemes were used. Each page was numbered by the enumerator. Each household and family were sequentially numbered as data was collected. (This is how it is possible to often unite families whose information is listed on different pages.) Each page was numbered when it was submitted in final form by the census taker. Each page image was indexed when it was microfilmed. Each page might also be indexed by the vendor from whom it was obtained.

John Haberman

February 2001; April 2002; January 2003

Made available to The Steele Co. genealogy pages by: John Haberman

=====

These files contain the readable names as extracted from the microfilmed 1920 Federal Census page images for Steele County, Minnesota. The official date of the census was January 1, 1920. The census pages are all dated between January 2 and April 6. In addition to the SURNAME, Census Page, First Name and Age, I have added a Soundex Index corresponding to each SURNAME. An "Enumeration District" Table, below, allows you to associate a census page with a township, city or village.

These files represent a "best effort" at interpreting the text from the images. Others reviewing the images will read some text differently. Often the penmanship of the census taker was poor. Some microfilm images are low quality. With time the ink was absorbed into the paper yielding 'smeared' text. Aging of the paper results in darkening that makes some of the text difficult to read.

The SURNAMES are ordered alphabetically in a "family friendly" format. This format preserves much of the family information from the census listings. Proper genealogy requires that YOU MUST VERIFY YOUR FINDINGS BY OBTAINING AND EXAMINING THE ORIGINAL, SOURCE, INFORMATION.

If you don't find the person(s) you seek, be very creative with alternate spellings and possible misspellings. The spelling of the census takers was often "creative". They generally spelled the names "as they heard them" (i.e., phonetically). Reading the images was sometimes difficult but especially so when poor penmanship is combined with strings of "m", "n", "u", "w", "e", "i", "r", "s", etc. letters. (My experiences interpreting the census images suggest that a given person's name will have an alternate spelling about 25% of the time.)

I made few attempts to correct 'obvious' mistakes (spelling, age, relationship etc.) I tried to enter the information as it appears in the images. (Example: several census takers wrote their "o" such that it appears as an "a" or "u".) Rather than indicate some names as totally unreadable I sometimes made an "educated guess" about a name. In other cases I "flagged" names as partially unreadable. However, in a few instances the NAME was totally unreadable.

Census Pages	Enumeration District	No.	Notes
1 - 9	Aurora Township	817	
10 - 17	Berlin Township	748	(a)
18 - 21	Ellendale Village	367	(a)
22 - 32	Blooming Prairie Village	1012	
33 - 39	Blooming Prairie Township	698	
40 - 49	Clinton Falls Township	473	
50 - 57	Deerfield Township	754	
58 - 65	Havana Township	718	
66 - 74	Lemond Township	837	
75 - 87	Medford Township	695	
88 - 96	Meriden Township	764	
97 - 103	Merton Township	675	
104 - 119	Owatonna city Ward 1	1513	(a),(b)
120 - 135	Owatonna city Ward 2	1562	(a),(c)
136 - 152	Owatonna city Ward 3	1642	(a),(d)
153 - 165	Owatonna city Ward 4	1266	(e)
166 - 181	Owatonna city Ward 5	1269	(a),(c)
182 - 188	Owatonna Township	609	
189 - 197	Somerset Township	885	
198 - 205	Summit Township	759	
-----			
Total		18063	(f)

The letters "A" & "B" are used to identify the front and back sides respectively of each numbered census page (image.)

- (a) Additions to previously recorded family groups were entered on the last page(s) for this enumeration district.
- (b) Includes the Poor Farm (p. 119A) and Pillsbury Academy (p. 119B)
- (c) Some page images are sequenced incorrectly for this district.
- (d) Includes 393 persons living as the State School for Indigent Children (the "Orphan's Home", pp. 138A - 142A.)
- (e) Includes the Sacred Heart Convent.
- (f) 17 Persons have also been omitted from these listings (but not from this total) because I was unable to determine 7 surnames.

Paul 13

- Notes: 1. This composite shows entries from the 1880 - 1930 censuses and covers four generations of my family.  
2. The <year> identification appears ONLY in this sample.  
3. Notice the variety of spellings, names and nicknames.

-----  
Explanation for Special Notations appearing in the listings  
-----

- \* indicates multiple letters as unreadable
- ~ indicates one letter as unreadable
- ? indicates that the previous letter is uncertain
- or -- indicates no entry in that column
- (?) indicates that the name is an 'educated' guess
- (F) indicates a Female Person but an unreadable name
- (M) indicates a Male Person but an unreadable name
- m# indicates an age in months (for children younger than 1)
- d# indicates an age in days (for children younger than 1 month)

=====

This format, called "Family Friendly", evolved as a way to maintain some of the family relationship information from the census listings. Each new entry in the "Surname" column results from any of the following factors:

1. A new "household" marked in the census
2. A new "family" marked in the census
3. A new Surname occurring in the census
4. A 'continued' listing appearing on a new page

For each new "Surname" entry, a Soundex Code is also shown. That person marked as "Head" of the household is named first. Others listed on the same line, or continuing line(s), include those listed as wife, husband, son, daughter, and others sharing the same surname. Sometimes family members are not listed on the same page as the household "Head". This causes the sort routine to generate a new line and "Surname" entry. I have forced the routine to place these cases immediately following the line containing the "Head" of the household. A review of the ages usually suggests that this has happened.

This format fails to show family and household relationship information for:

1. in-laws
2. married daughters and their family
3. the wife's parents and siblings
4. step children
5. adopted children
6. siblings at the State School (Orphan Home)

!! IF YOU HAVE ANY DOUBTS ABOUT POSSIBLE FAMILY RELATIONSHIPS, !!  
!! YOU MUST OBTAIN AND CAREFULLY EXAMINE THE CENSUS IMAGES! !!

=====

-----

Notes

-----

1. The SURNAME "Sister" has been assigned to the Sisters at the Sacred Heart Convent.
2. The Soundex Index: This code helps to find SURNAMES that sound alike. One flaw is that it is based on "English" phonics (i.e., (French or Native American names might not conform.) Another problem occurs for "prefixed" names (other than Mc- and Mac-) since these names may be coded with or without the prefix.
3. For those names flagged as only partially readable, an attempt to determine a possible Soundex Index was made. The zero "0" is used to "pad" the index to its proper length.
4. A summary of the information contained in the 1920 Federal Census Records (images) is contained in a separate file.
5. Some of the enumerators indicated the age of a child under 5 in year and months format. I recorded the "months" information only for those children under 1.
6. It is frequently possible to detect errors in the census data images because several numbering schemes were used. Each page was numbered by the enumerator. Each household and family were sequentially numbered as data was collected. (This is how it is possible to often unite families whose information is listed on different pages.) Each page was numbered when it was submitted in final form by the census taker. Each page image was indexed when it was microfilmed. Each page might also be indexed by the vendor from whom it was obtained.

John Haberman

Made available to The Steele Co. genealogy pages by: John Haberman

=====

These files contain the readable names as extracted from the microfilmed 1920 Federal Census page images for Steele County, Minnesota. The official date of the census was January 1, 1920. The census pages are all dated between January 2 and April 6. In addition to the SURNAME, Census Page, First Name and Age, I have added a Soundex Index corresponding to each SURNAME. An "Enumeration District" Table, below, allows you to associate a census page with a township, city or village.

These files represent a "best effort" at interpreting the text from the images. Others reviewing the images will read some text differently. Often the penmanship of the census taker was poor. Some microfilm images are low quality. With time the ink was absorbed into the paper yielding 'smeared' text. Aging of the paper results in darkening that makes some of the text difficult to read.

The SURNAMES are ordered alphabetically in a "family friendly" format. This format preserves much of the family information from the census listings. Proper genealogy requires that YOU MUST VERIFY YOUR FINDINGS BY OBTAINING AND EXAMINING THE ORIGINAL, SOURCE, INFORMATION.

If you don't find the person(s) you seek, be very creative with alternate spellings and possible misspellings. The spelling of the census takers was often "creative". They generally spelled the names "as they heard them" (i.e., phonetically). Reading the images was sometimes difficult but especially so when poor penmanship is combined with strings of "m", "n", "u", "w", "e", "i", "r", "s", etc. letters. (My experiences interpreting the census images suggest that a given person's name will have an alternate spelling about 25% of the time.)

I made few attempts to correct 'obvious' mistakes (spelling, age, relationship etc.) I tried to enter the information as it appears in the images. (Example: several census takers wrote their "o" such that it appears as an "a" or "u".) Rather than indicate some names as totally unreadable I sometimes made an "educated guess" about a name. In other cases I "flagged" names as partially unreadable. However, in a few instances the NAME was totally unreadable.

=====

-----  
Census Enumeration Districts, Steele County, 1920  
-----

Census Pages	Enumeration District	No.	Notes
1 - 9	Aurora Township	817	
10 - 17	Berlin Township	748	(a)
18 - 21	Ellendale Village	367	(a)
22 - 32	Blooming Prairie Village	1012	
33 - 39	Blooming Prairie Township	698	
40 - 49	Clinton Falls Township	473	
50 - 57	Deerfield Township	754	
58 - 65	Havana Township	718	
66 - 74	Lemond Township	837	
75 - 87	Medford Township	695	
88 - 96	Meriden Township	764	
97 - 103	Merton Township	675	
104 - 119	Owatonna city Ward 1	1513	(a),(b)
120 - 135	Owatonna city Ward 2	1562	(a),(c)
136 - 152	Owatonna city Ward 3	1642	(a),(d)
153 - 165	Owatonna city Ward 4	1266	(e)
166 - 181	Owatonna city Ward 5	1269	(a),(c)
182 - 188	Owatonna Township	609	
189 - 197	Somerset Township	885	
198 - 205	Summit Township	759	
-----			
Total		18063	(f)

The letters "A" & "B" are used to identify the front and back sides respectively of each numbered census page (image.)

- (a) Additions to previously recorded family groups were entered on the last page(s) for this enumeration district.
- (b) Includes the Poor Farm (p. 119A) and Pillsbury Academy (p. 119B)
- (c) Some page images are sequenced incorrectly for this district.
- (d) Includes 393 persons living as the State School for Indigent Children (the "Orphan's Home", pp. 138A - 142A.)
- (e) Includes the Sacred Heart Convent.
- (f) 17 Persons have also been omitted from these listings (but not from this total) because I was unable to determine 7 surnames.

- 1920 Haberman, H165 45A Vencil 79, Thresa 77  
Haberman, H165 146B John 46, Katherine 40, John R 21,

Joseph R 18, Elizabeth 14, Clara 12,  
George 10, Albert 8, Louise 5, Paul 2  
1930 Haberman, H165 189A Kate 50, George 20, Albert 18, Louise 15,  
Paul 13

- Notes: 1. This composite shows entries from the 1880 - 1930 censuses and covers four generations of my family.  
2. The <year> identification appears ONLY in this sample.  
3. Notice the variety of spellings, names and nicknames.

-----  
Explanation for Special Notations appearing in the listings  
-----

- \* indicates multiple letters as unreadable
- ~ indicates one letter as unreadable
- ? indicates that the previous letter is uncertain
- or -- indicates no entry in that column
- (?) indicates that the name is an 'educated' guess
- (F) indicates a Female Person but an unreadable name
- (M) indicates a Male Person but an unreadable name
- m# indicates an age in months (for children younger than 1)
- d# indicates an age in days (for children younger than 1 month)

=====

This format, called "Family Friendly", evolved as a way to maintain some of the family relationship information from the census listings. Each new entry in the "Surname" column results from any of the following factors:

1. A new "household" marked in the census
2. A new "family" marked in the census
3. A new Surname occurring in the census
4. A 'continued' listing appearing on a new page

For each new "Surname" entry, a Soundex Code is also shown. That person marked as "Head" of the household is named first. Others listed on the same line, or continuing line(s), include those listed as wife, husband, son, daughter, and others sharing the same surname. Sometimes family members are not listed on the same page as the household "Head". This causes the sort routine to generate a new line and "Surname" entry. I have forced the routine to place these cases immediately following the line containing the "Head" of the household. A review of the ages usually suggests that this has happened.

This format fails to show family and household relationship information for:

1. in-laws
2. married daughters and their family
3. the wife's parents and siblings
4. step children
5. adopted children
6. siblings at the State School (Orphan Home)

!! IF YOU HAVE ANY DOUBTS ABOUT POSSIBLE FAMILY RELATIONSHIPS, !!  
!! YOU MUST OBTAIN AND CAREFULLY EXAMINE THE CENSUS IMAGES! !!

=====

-----

Notes

-----

1. The SURNAME "Sister" has been assigned to the Sisters at the Sacred Heart Convent.
2. The Soundex Index: This code helps to find SURNAMES that sound alike. One flaw is that it is based on "English" phonics (i.e., French or Native American names might not conform.) Another problem occurs for "prefixed" names (other than Mc- and Mac-) since these names may be coded with or without the prefix.
3. For those names flagged as only partially readable, an attempt to determine a possible Soundex Index was made. The zero "0" is used to "pad" the index to its proper length.
4. A summary of the information contained in the 1920 Federal Census Records (images) is contained in a separate file.
5. Some of the enumerators indicated the age of a child under 5 in year and months format. I recorded the "months" information only for those children under 1.
6. It is frequently possible to detect errors in the census data images because several numbering schemes were used. Each page was numbered by the enumerator. Each household and family were sequentially numbered as data was collected. (This is how it is possible to often unite families whose information is listed on different pages.) Each page was numbered when it was submitted in final form by the census taker. Each page image was indexed when it was microfilmed. Each page might also be indexed by the vendor from whom it was obtained.

John Haberman

February 2001; April 2002; January 2003

Made available to The Steele Co. genealogy pages by: John Haberman

=====

These files contain the readable names as extracted from the microfilmed 1920 Federal Census page images for Steele County, Minnesota. The official date of the census was January 1, 1920. The census pages are all dated between January 2 and April 6. In addition to the SURNAME, Census Page, First Name and Age, I have added a Soundex Index corresponding to each SURNAME. An "Enumeration District" Table, below, allows you to associate a census page with a township, city or village.

These files represent a "best effort" at interpreting the text from the images. Others reviewing the images will read some text differently. Often the penmanship of the census taker was poor. Some microfilm images are low quality. With time the ink was absorbed into the paper yielding 'smeared' text. Aging of the paper results in darkening that makes some of the text difficult to read.

The SURNAMES are ordered alphabetically in a "family friendly" format. This format preserves much of the family information from the census listings. Proper genealogy requires that YOU MUST VERIFY YOUR FINDINGS BY OBTAINING AND EXAMINING THE ORIGINAL, SOURCE, INFORMATION.

If you don't find the person(s) you seek, be very creative with alternate spellings and possible misspellings. The spelling of the census takers was often "creative". They generally spelled the names "as they heard them" (i.e., phonetically). Reading the images was sometimes difficult but especially so when poor penmanship is combined with strings of "m", "n", "u", "w", "e", "i", "r", "s", etc. letters. (My experiences interpreting the census images suggest that a given person's name will have an alternate spelling about 25% of the time.)

I made few attempts to correct 'obvious' mistakes (spelling, age, relationship etc.) I tried to enter the information as it appears in the images. (Example: several census takers wrote their "o" such that it appears as an "a" or "u".) Rather than indicate some names as totally unreadable I sometimes made an "educated guess" about a name. In other cases I "flagged" names as partially unreadable. However, in a few instances the NAME was totally unreadable.

=====

-----  
Census Enumeration Districts, Steele County, 1920  
-----

Census Pages	Enumeration District	No.	Notes
1 - 9	Aurora Township	817	
10 - 17	Berlin Township	748	(a)
18 - 21	Ellendale Village	367	(a)
22 - 32	Blooming Prairie Village	1012	
33 - 39	Blooming Prairie Township	698	
40 - 49	Clinton Falls Township	473	
50 - 57	Deerfield Township	754	
58 - 65	Havana Township	718	
66 - 74	Lemond Township	837	
75 - 87	Medford Township	695	
88 - 96	Meriden Township	764	
97 - 103	Merton Township	675	
104 - 119	Owatonna city Ward 1	1513	(a),(b)
120 - 135	Owatonna city Ward 2	1562	(a),(c)
136 - 152	Owatonna city Ward 3	1642	(a),(d)
153 - 165	Owatonna city Ward 4	1266	(e)
166 - 181	Owatonna city Ward 5	1269	(a),(c)
182 - 188	Owatonna Township	609	
189 - 197	Somerset Township	885	
198 - 205	Summit Township	759	
-----			
Total		18063	(f)

The letters "A" & "B" are used to identify the front and back sides respectively of each numbered census page (image.)

- (a) Additions to previously recorded family groups were entered on the last page(s) for this enumeration district.
- (b) Includes the Poor Farm (p. 119A) and Pillsbury Academy (p. 119B)
- (c) Some page images are sequenced incorrectly for this district.
- (d) Includes 393 persons living as the State School for Indigent Children (the "Orphan's Home", pp. 138A - 142A.)
- (e) Includes the Sacred Heart Convent.
- (f) 17 Persons have also been omitted from these listings (but not from this total) because I was unable to determine 7 surnames.

Joseph R 18, Elizabeth 14, Clara 12,  
George 10, Albert 8, Louise 5, Paul 2  
1930 Haberman, H165 189A Kate 50, George 20, Albert 18, Louise 15,  
Paul 13

- Notes: 1. This composite shows entries from the 1880 - 1930 censuses and covers four generations of my family.  
2. The <year> identification appears ONLY in this sample.  
3. Notice the variety of spellings, names and nicknames.

-----  
Explanation for Special Notations appearing in the listings  
-----

- \* indicates multiple letters as unreadable
- ~ indicates one letter as unreadable
- ? indicates that the previous letter is uncertain
- or -- indicates no entry in that column
- (?) indicates that the name is an 'educated' guess
- (F) indicates a Female Person but an unreadable name
- (M) indicates a Male Person but an unreadable name
- m# indicates an age in months (for children younger than 1)
- d# indicates an age in days (for children younger than 1 month)

=====

This format, called "Family Friendly", evolved as a way to maintain some of the family relationship information from the census listings. Each new entry in the "Surname" column results from any of the following factors:

1. A new "household" marked in the census
2. A new "family" marked in the census
3. A new Surname occurring in the census
4. A 'continued' listing appearing on a new page

For each new "Surname" entry, a Soundex Code is also shown. That person marked as "Head" of the household is named first. Others listed on the same line, or continuing line(s), include those listed as wife, husband, son, daughter, and others sharing the same surname. Sometimes family members are not listed on the same page as the household "Head". This causes the sort routine to generate a new line and "Surname" entry. I have forced the routine to place these cases immediately following the line containing the "Head" of the household. A review of the ages usually suggests that this has happened.

This format fails to show family and household relationship information for:

1. in-laws
2. married daughters and their family
3. the wife's parents and siblings
4. step children
5. adopted children
6. siblings at the State School (Orphan Home)

!! IF YOU HAVE ANY DOUBTS ABOUT POSSIBLE FAMILY RELATIONSHIPS, !!  
!! YOU MUST OBTAIN AND CAREFULLY EXAMINE THE CENSUS IMAGES! !!

=====

-----

Notes

-----

1. The SURNAME "Sister" has been assigned to the Sisters at the Sacred Heart Convent.
2. The Soundex Index: This code helps to find SURNAMES that sound alike. One flaw is that it is based on "English" phonics (i.e., (French or Native American names might not conform.) Another problem occurs for "prefixed" names (other than Mc- and Mac-) since these names may be coded with or without the prefix.
3. For those names flagged as only partially readable, an attempt to determine a possible Soundex Index was made. The zero "0" is used to "pad" the index to its proper length.
4. A summary of the information contained in the 1920 Federal Census Records (images) is contained in a separate file.
5. Some of the enumerators indicated the age of a child under 5 in year and months format. I recorded the "months" information only for those children under 1.
6. It is frequently possible to detect errors in the census data images because several numbering schemes were used. Each page was numbered by the enumerator. Each household and family were sequentially numbered as data was collected. (This is how it is possible to often unite families whose information is listed on different pages.) Each page was numbered when it was submitted in final form by the census taker. Each page image was indexed when it was microfilmed. Each page might also be indexed by the vendor from whom it was obtained.

John Haberman

February 2001; April 2002; January 2003

Made available to The Steele Co. genealogy pages by: John Haberman

=====

These files contain the readable names as extracted from the microfilmed 1920 Federal Census page images for Steele County, Minnesota. The official date of the census was January 1, 1920. The census pages are all dated between January 2 and April 6. In addition to the SURNAME, Census Page, First Name and Age, I have added a Soundex Index corresponding to each SURNAME. An "Enumeration District" Table, below, allows you to associate a census page with a township, city or village.

These files represent a "best effort" at interpreting the text from the images. Others reviewing the images will read some text differently. Often the penmanship of the census taker was poor. Some microfilm images are low quality. With time the ink was absorbed into the paper yielding 'smeared' text. Aging of the paper results in darkening that makes some of the text difficult to read.

The SURNAMES are ordered alphabetically in a "family friendly" format. This format preserves much of the family information from the census listings. Proper genealogy requires that YOU MUST VERIFY YOUR FINDINGS BY OBTAINING AND EXAMINING THE ORIGINAL, SOURCE, INFORMATION.

If you don't find the person(s) you seek, be very creative with alternate spellings and possible misspellings. The spelling of the census takers was often "creative". They generally spelled the names "as they heard them" (i.e., phonetically). Reading the images was sometimes difficult but especially so when poor penmanship is combined with strings of "m", "n", "u", "w", "e", "i", "r", "s", etc. letters. (My experiences interpreting the census images suggest that a given person's name will have an alternate spelling about 25% of the time.)

I made few attempts to correct 'obvious' mistakes (spelling, age, relationship etc.) I tried to enter the information as it appears in the images. (Example: several census takers wrote their "o" such that it appears as an "a" or "u".) Rather than indicate some names as totally unreadable I sometimes made an "educated guess" about a name. In other cases I "flagged" names as partially unreadable. However, in a few instances the NAME was totally unreadable.

Census Pages	Enumeration District	No.	Notes
1 - 9	Aurora Township	817	
10 - 17	Berlin Township	748	(a)
18 - 21	Ellendale Village	367	(a)
22 - 32	Blooming Prairie Village	1012	
33 - 39	Blooming Prairie Township	698	
40 - 49	Clinton Falls Township	473	
50 - 57	Deerfield Township	754	
58 - 65	Havana Township	718	
66 - 74	Lemond Township	837	
75 - 87	Medford Township	695	
88 - 96	Meriden Township	764	
97 - 103	Merton Township	675	
104 - 119	Owatonna city Ward 1	1513	(a),(b)
120 - 135	Owatonna city Ward 2	1562	(a),(c)
136 - 152	Owatonna city Ward 3	1642	(a),(d)
153 - 165	Owatonna city Ward 4	1266	(e)
166 - 181	Owatonna city Ward 5	1269	(a),(c)
182 - 188	Owatonna Township	609	
189 - 197	Somerset Township	885	
198 - 205	Summit Township	759	
-----			
Total		18063	(f)

The letters "A" & "B" are used to identify the front and back sides respectively of each numbered census page (image.)

- (a) Additions to previously recorded family groups were entered on the last page(s) for this enumeration district.
- (b) Includes the Poor Farm (p. 119A) and Pillsbury Academy (p. 119B)
- (c) Some page images are sequenced incorrectly for this district.
- (d) Includes 393 persons living as the State School for Indigent Children (the "Orphan's Home", pp. 138A - 142A.)
- (e) Includes the Sacred Heart Convent.
- (f) 17 Persons have also been omitted from these listings (but not from this total) because I was unable to determine 7 surnames.

- 1920 Haberman, H165 45A Vencil 79, Thresa 77  
Haberman, H165 146B John 46, Katherine 40, John R 21,

Joseph R 18, Elizabeth 14, Clara 12,  
George 10, Albert 8, Louise 5, Paul 2  
1930 Haberman, H165 189A Kate 50, George 20, Albert 18, Louise 15,  
Paul 13

- Notes: 1. This composite shows entries from the 1880 - 1930 censuses and covers four generations of my family.  
2. The <year> identification appears ONLY in this sample.  
3. Notice the variety of spellings, names and nicknames.

-----  
Explanation for Special Notations appearing in the listings  
-----

- \* indicates multiple letters as unreadable
- ~ indicates one letter as unreadable
- ? indicates that the previous letter is uncertain
- or -- indicates no entry in that column
- (?) indicates that the name is an 'educated' guess
- (F) indicates a Female Person but an unreadable name
- (M) indicates a Male Person but an unreadable name
- m# indicates an age in months (for children younger than 1)
- d# indicates an age in days (for children younger than 1 month)

=====

This format, called "Family Friendly", evolved as a way to maintain some of the family relationship information from the census listings. Each new entry in the "Surname" column results from any of the following factors:

1. A new "household" marked in the census
2. A new "family" marked in the census
3. A new Surname occurring in the census
4. A 'continued' listing appearing on a new page

For each new "Surname" entry, a Soundex Code is also shown. That person marked as "Head" of the household is named first. Others listed on the same line, or continuing line(s), include those listed as wife, husband, son, daughter, and others sharing the same surname. Sometimes family members are not listed on the same page as the household "Head". This causes the sort routine to generate a new line and "Surname" entry. I have forced the routine to place these cases immediately following the line containing the "Head" of the household. A review of the ages usually suggests that this has happened.

This format fails to show family and household relationship information for:

1. in-laws
2. married daughters and their family
3. the wife's parents and siblings
4. step children
5. adopted children
6. siblings at the State School (Orphan Home)

**!! IF YOU HAVE ANY DOUBTS ABOUT POSSIBLE FAMILY RELATIONSHIPS, !!  
!! YOU MUST OBTAIN AND CAREFULLY EXAMINE THE CENSUS IMAGES! !!**

=====

-----

Notes

-----

1. The SURNAME "Sister" has been assigned to the Sisters at the Sacred Heart Convent.
2. The Soundex Index: This code helps to find SURNAMES that sound alike. One flaw is that it is based on "English" phonics (i.e., (French or Native American names might not conform.) Another problem occurs for "prefixed" names (other than Mc- and Mac-) since these names may be coded with or without the prefix.
3. For those names flagged as only partially readable, an attempt to determine a possible Soundex Index was made. The zero "0" is used to "pad" the index to its proper length.
4. A summary of the information contained in the 1920 Federal Census Records (images) is contained in a separate file.
5. Some of the enumerators indicated the age of a child under 5 in year and months format. I recorded the "months" information only for those children under 1.
6. It is frequently possible to detect errors in the census data images because several numbering schemes were used. Each page was numbered by the enumerator. Each household and family were sequentially numbered as data was collected. (This is how it is possible to often unite families whose information is listed on different pages.) Each page was numbered when it was submitted in final form by the census taker. Each page image was indexed when it was microfilmed. Each page might also be indexed by the vendor from whom it was obtained.

John Haberman

February 2001; April 2002; January 2003

Made available to The Steele Co. genealogy pages by: John Haberman

=====

These files contain the readable names as extracted from the microfilmed 1920 Federal Census page images for Steele County, Minnesota. The official date of the census was January 1, 1920. The census pages are all dated between January 2 and April 6. In addition to the SURNAME, Census Page, First Name and Age, I have added a Soundex Index corresponding to each SURNAME. An "Enumeration District" Table, below, allows you to associate a census page with a township, city or village.

These files represent a "best effort" at interpreting the text from the images. Others reviewing the images will read some text differently. Often the penmanship of the census taker was poor. Some microfilm images are low quality. With time the ink was absorbed into the paper yielding 'smeared' text. Aging of the paper results in darkening that makes some of the text difficult to read.

The SURNAMES are ordered alphabetically in a "family friendly" format. This format preserves much of the family information from the census listings. Proper genealogy requires that YOU MUST VERIFY YOUR FINDINGS BY OBTAINING AND EXAMINING THE ORIGINAL, SOURCE, INFORMATION.

If you don't find the person(s) you seek, be very creative with alternate spellings and possible misspellings. The spelling of the census takers was often "creative". They generally spelled the names "as they heard them" (i.e., phonetically). Reading the images was sometimes difficult but especially so when poor penmanship is combined with strings of "m", "n", "u", "w", "e", "i", "r", "s", etc. letters. (My experiences interpreting the census images suggest that a given person's name will have an alternate spelling about 25% of the time.)

I made few attempts to correct 'obvious' mistakes (spelling, age, relationship etc.) I tried to enter the information as it appears in the images. (Example: several census takers wrote their "o" such that it appears as an "a" or "u".) Rather than indicate some names as totally unreadable I sometimes made an "educated guess" about a name. In other cases I "flagged" names as partially unreadable. However, in a few instances the NAME was totally unreadable.

-----			
Total		18063	(f)

The letters "A" & "B" are used to identify the front and back sides respectively of each numbered census page (image.)

- (a) Additions to previously recorded family groups were entered on the last page(s) for this enumeration district.
- (b) Includes the Poor Farm (p. 119A) and Pillsbury Academy (p. 119B)
- (c) Some page images are sequenced incorrectly for this district.
- (d) Includes 393 persons living as the State School for Indigent Children (the "Orphan's Home", pp. 138A - 142A.)
- (e) Includes the Sacred Heart Convent.
- (f) 17 Persons have also been omitted from these listings (but not from this total) because I was unable to determine 7 surnames.

Surname, Soundex Page Name(s) & Age(s)  
-----

- 1880 Haberman, H165 103A Wenzl 62, Rosie 60, Jacob 29, Adolphus 24, Ferdinand 19, Carrie 17
- Haberman, H165 107A Vencil 39, Clara 37, Mary 17, Vencil 15, Threse 13, Manuel 11, Paul 8, John 6, Peter 4, Jacob 2, Annie d1
- 1900 Hubberman, H165 144B John 26, Kate 20, John 1
- Hoberman, H165 177A Wencil 58, Thressy 56, Rosy 16, Melia 12, Stena 11, Josie 10
- 1910 Habrman, H165 277B Wencil 69, Thressia 67, Amelia 21, Stanislav 20
- Haberman, H165 226B John J. 35, Kathrine 30, John W. 11, Joseph 8, Elizabeth 5, Clara 3, George 8m
- 1920 Haberman, H165 45A Vencil 79, Thresa 77
- Haberman, H165 146B John 46, Katherine 40, John R 21,

Joseph R 18, Elizabeth 14, Clara 12,  
George 10, Albert 8, Louise 5, Paul 2  
1930 Haberman, H165 189A Kate 50, George 20, Albert 18, Louise 15,  
Paul 13

- Notes: 1. This composite shows entries from the 1880 - 1930  
censuses and covers four generations of my family.  
2. The <year> identification appears ONLY in this sample.  
3. Notice the variety of spellings, names and nicknames.

-----  
Explanation for Special Notations appearing in the listings  
-----

- \* indicates multiple letters as unreadable
- ~ indicates one letter as unreadable
- ? indicates that the previous letter is uncertain
- or -- indicates no entry in that column
- (?) indicates that the name is an 'educated' guess
- (F) indicates a Female Person but an unreadable name
- (M) indicates a Male Person but an unreadable name
- m# indicates an age in months (for children younger than 1)
- d# indicates an age in days (for children younger than 1 month)

=====

This format, called "Family Friendly", evolved as a way to maintain some of the family relationship information from the census listings. Each new entry in the "Surname" column results from any of the following factors:

1. A new "household" marked in the census
2. A new "family" marked in the census
3. A new Surname occurring in the census
4. A 'continued' listing appearing on a new page

For each new "Surname" entry, a Soundex Code is also shown. That person marked as "Head" of the household is named first. Others listed on the same line, or continuing line(s), include those listed as wife, husband, son, daughter, and others sharing the same surname. Sometimes family members are not listed on the same page as the household "Head". This causes the sort routine to generate a new line and "Surname" entry. I have forced the routine to place these cases immediately following the line containing the "Head" of the household. A review of the ages usually suggests that this has happened.

This format fails to show family and household relationship information for:

1. in-laws
2. married daughters and their family
3. the wife's parents and siblings
4. step children
5. adopted children
6. siblings at the State School (Orphan Home)

!! IF YOU HAVE ANY DOUBTS ABOUT POSSIBLE FAMILY RELATIONSHIPS, !!  
!! YOU MUST OBTAIN AND CAREFULLY EXAMINE THE CENSUS IMAGES! !!

=====

-----

Notes

-----

1. The SURNAME "Sister" has been assigned to the Sisters at the Sacred Heart Convent.
2. The Soundex Index: This code helps to find SURNAMES that sound alike. One flaw is that it is based on "English" phonics (i.e., (French or Native American names might not conform.) Another problem occurs for "prefixed" names (other than Mc- and Mac-) since these names may be coded with or without the prefix.
3. For those names flagged as only partially readable, an attempt to determine a possible Soundex Index was made. The zero "0" is used to "pad" the index to its proper length.
4. A summary of the information contained in the 1920 Federal Census Records (images) is contained in a separate file.
5. Some of the enumerators indicated the age of a child under 5 in year and months format. I recorded the "months" information only for those children under 1.
6. It is frequently possible to detect errors in the census data images because several numbering schemes were used. Each page was numbered by the enumerator. Each household and family were sequentially numbered as data was collected. (This is how it is possible to often unite families whose information is listed on different pages.) Each page was numbered when it was submitted in final form by the census taker. Each page image was indexed when it was microfilmed. Each page might also be indexed by the vendor from whom it was obtained.

John Haberman

February 2001; April 2002; January 2003
